1. When I **had eaten** I began watching TV.
2. "Boz Maskaraboz" is a comedy.

3. My favourite book is "The Old Man and the Sea" by Ernest Hemingway. This story is one of the well-known works of the writer. The author depicts the characters of the old man and the boy and their relations very vividly and skillfully. Santiago, the old man, was one of the writer's beloved characters. The old man was a born fisherman, but he was not a butcher and fished only for a living. He was very lonely. He had a devoted friend - the boy, Manolin. The boy loved the old man for his kind heart, his devotion the sea. Manolin was like a son to Santiago. He took care of the old man's food and his belongings. The old man was glad to pass his experience to the boy. He looked forward to going to the sea together with the boy. All Santiago's life had been in preparation for the battle with big fish. He knew that he had been born for this and it was time to prove it. A strong man at last had met a strong fish. The battle was a difficult one and full of danger. Though the sharks had eaten the fish and nothing had left but the backbone, the old man had morally won the battle. Santiago's words "man can be destroyed but not defeated" are the main idea of this story. "The Old Man and the Sea" is a masterpiece for its imaginative language and the description of nature.

1. My radio doesn't work very well, but I don't know what is wrong **with** it.
2. Director- Habibulla Fayziev Actor- Azamatali Qalandarov Music- Farrux Zokirov
3. My future dream

When I'm thinking about my future I cannot say for sure what it will be like. Many of teenagers do not know what they want to become. But I am sure that the most important things for me in future will be my profession and family. My opinion is that good education is necessary to get a good job. Profession is a very important choice that will define all of my future life. I am glad that my parents support me.

I'm going to enter university after graduation from school. I want to become an economist and to work in bank. I know that nowadays there are many economists who cannot get a job. But as for me, I really have great interest and talent for Mathematics and economics; also I am a hard-working and responsible person that's why I hope I will manage to succeed. High-qualified specialists are always needed.

What's more I want to have my own family in future. You cannot go far without true close person you love beside you. I'm planning to have kids and to live in my own apartments. As for our family now is rather big but our flat is small enough and also it's on the eighth floor I cannot have a pet. But I love dogs very much. So, in my future life I will surely have one, because a dog is like a real friend.

Of course I hope I'll have possibility to travel and to meet interesting people in future. I want to drive a car. Now it sounds like a dream but these are things I want to have and to do. I am sure that plans begin from dreams. And I hope that my future holds a lot of nice surprises for me!

1. When do you have English lesson?
2. Akhmedova is the author of painting "Mother and child"

3. Yesterday it was Sunday, that's why my last day off was not long ago and I remember it quite well. I always try to do my best to make my holidays really exciting, because we have only few days in a week for relaxation and rest.

Yesterday my friends and I agreed to meet at my place. First we watched a very interesting TV show «What? Where? When?». Then we went took a videocassette and watched an outstanding movie «The Independence Day». This is a story about strangers from the other planets that were trying to conquer the whole Earth and about the struggle against them. The movie is full of visual effects and computer graphics that takes your breath and makes you admire the modern technologies in the cinema. I wish our studios and directors made such movies. «The Independence Day» can be added to the genius pieces of modern art – that is my opinion.

Having watched the film, we decided that it was a time to go outside. The first place we went to was the sports ground. Though it was rather cold, we put on warm clothes and had fun. Almost all day long we played soccer and basketball.

As for me, I like weekends and holidays, as the majority of other people. And I like telling about my holidays. It's dull to listen about the ordinary working day, how do you think? Every working day looks like another, but every weekend is different from the other. During the weekend we have an opportunity of enjoying the life and having rest.
