Lesson 6 Fax, Internet, e-mail ... what next?

1a Work in groups. Ask and answer. Look at the pictures in lesson 5.

- 1 Which of the ways in 1b is the quickest way to send a message?
- 2 Which of the ways is the cheapest way to send a message?
- 3 Which is the easiest way to send a message?
- 4 Which ways have you used?
- 5 When did the idea of the Internet begin?
- 6 Which year did we begin to use the Internet in Uzbekistan?

1b Read and check.

The Internet was invented in the late 1960s by the US Defense Department's Advanced Research Projects Agency. In 1969, there was a network of just four mainframe computers. A mainframe computer is a large, powerful computer, shared by many users. The idea of the electronic mailbox was born when users looked for a way to talk to each other electronically. By 1984, the Internet had begun to develop into the form we know today. Electronic mail is much faster than traditional mail, because once the message is typed out, it arrives in the electronic mail box of the recipient within minutes. It's better to use e-mail to contact friends rather than phone them, because e-mail is cheaper for long distances than the phone. People can share their interests through the Internet and it makes it very easy to exchange ideas and information. Internet access in Uzbekistan began around 1997.

The fax machine is a very convenient aid to contact companies and friends because messages are transmitted immediately. Fax machines work like photocopies. They make a copy of a document and then send it down a telephone line to another fax machine. In this way they can send and receive information from each other. You can send any kind of things by fax, but it is more expensive than e-mail.

1c How do you think the Internet can make our life easier?

2a Work in pairs. Match beginnings and endings.

How will life be different 100 years from now?

e.g. 1 Many people will live on the Moon in 2114.

- | | |
|---|---|
| 1 Many people will live | a translate from one language to another. |
| 2 All our news will | b on the Moon in 2114. |
| 3 Everyone will | c come through computers. |
| 4 Maybe even newspapers will | d also have computers. |
| 5 Not only schools but kindergartens will | e have a computer for each of their children. |
| 6 Each family will | f have disappeared. |
| 7 People will | g own a mobile phone. |
| 8 Computers will | h have their holidays on Mars and Jupiter. |

2b Work in groups. Imagine you are in 2114. Use the expressions in the cloud.

Talk about

Where you will live

What kind of newspapers/ TV – sets/computers/
transport/telephone you will have

Where you will spend your holiday

Do you think that robots will do the housework

Do you think that the future will be happy

Live on Mars/to exchange information on computers/each person will have their own supercars, they will run on water too/ spend holidays on Pluto/robots will help with the housework.

2c Report.

Lesson 7 The future language

1a Read the interview.

- Reporter: You know that millions of people all over the world speak English as a foreign or second language. We are interested in speaking English in the next century. So we interviewed teenagers about how they imagine the future multi-lingual society and if English will still be important in the future. Here is what they said.
- Nodir: I think languages change all the time. English is changing very quickly. But we need an International language. So I think English will continue to be the international language. It is the language of many countries – the USA, Canada, Australia, the UK, New Zealand, and an official language of many others such as South Africa.
- Zokir: The language in the next century? I think it depends on people. There are more than one billion people in China. It's the biggest single group in the world. I think Mandarin Chinese will be the International language in the future. And there are a lot of Spanish speakers too in Latin America and Central America – in the United States it's the fastest growing language... I'm not sure...
- Alice: I like English very much. I began learning English at kindergarten. But there are so many English words and expressions to learn and they are changing very quickly. Sometimes I feel sorry that it isn't my first language. But I'm very happy I can speak English fluently now. I think English will be the first language in future too.
- Nargiza: English is the future? I don't know. I try to speak English well but I know I make a lot of mistakes. That's why I am shy about speaking English but I'm a first year student at the moment. Maybe in four or five years I'll be able to speak it fluently. I want English to be an international language.
- Sobir: English is the first world language? Maybe. I've never thought about it.
- Nigora: Everyone will speak English soon. The world is a very small place. We all need to understand each other. English will be the first world language in future. I'm sure of it because it's the language of computers and business, of diplomacy – all the big agencies like the UN, the World Health Organisation, the World Bank and Asian Development Bank, NATO – they all work in English, international conferences for most subjects are in English – medicine, law, banking. I think English has a bright future!

1b Work in groups. What do you think?

Discuss your ideas and give reasons for your opinions.

e.g. I think Spanish will be the International language in the future.

1c Write an essay on the theme 'What is the future of English as a world language?' Make sure you understand the task.

For example, this is a 'for and against' composition. So you should write reasons why English might be a future world language and why it might not.

2 Collect some facts to support your view.

e.g. How many people in the world speak Chinese, Spanish, English as mother tongue, English as a foreign language – and compare them.

3 Organise your ideas and your writing.

- 1 Write an opening sentence which says...
- 2 Write a sentence which says what the first paragraph will be about...
- 3 Then give your ideas with supporting evidence.
- 4 Then write another paragraph with other views and the supporting evidence for them.
- 5 Write a final paragraph where you weigh up the evidence and give your conclusion.

4 Plan the language you will use.

facts – simple present
possibilities – may/might/could be
predictions – will

5 Write your first draft.

6 Read and check it. Ask yourself:

Is it logical? Are the ideas in a suitable order? Do you need to give more evidence? Have you repeated any ideas?

7 Give your work to a friend to check.

UNIT 2 THE WORLD OF WORK

Lesson 1 Attitudes to work

1 Chain Drill.

e.g. My father's an engineer and my mother's a doctor. What about yours?

2a Work in pairs. Answer the questions.

- 1 Why do your parents work?
- 2 What is work?
- 3 What is the difference between work, a job and a profession?
- 4 What is the difference between a wage and a salary?

2b Work in pairs. Read and choose three statements which define work.

- work is what you do every day as a paid job
- work is anything that you get paid for
- work is what you don't enjoy doing, but have to do
- work can be anything – cooking, washing clothes, gardening – the things we have to do in our daily life
- work is hard – it's what we do outside our free time
- work is the opposite of leisure

3a Read people's opinions about their job and find who:

- 1 sometimes earns a lot of money.
- 2 thinks that she doesn't get enough money for the job.
- 3 gets more money than just a salary.
- 4 wants to find another job to get more money.

Being a high school teacher is very **demanding**. I teach five classes a day with thirty-five kids to a class. I spend my evenings preparing lessons and correcting papers. At the end of the day I am very tired but I like my job. I'm pleased by young minds. I think I should be paid more.

I enjoy working as a waitress. I like the people who visit our place and those who I work with. That's why I **keep working** here. I guess I should look for a job in a restaurant where I can get more money. Everything seems to be more expensive lately. I wish I had a job with **perks**.

The **construction trade union** gets me work in projects all over the city, and makes sure that I get two weeks of **paid vacations** a year plus public holidays. I make extra money by doing small jobs for people who need work on their houses.

Rita

Susan

Mike

Joseph

I'm a **trader** in Chicago. Trading starts at 7am and finishes at 3.15pm. The whole time I'm competing against other traders to buy and sell. I have to be very **aggressive**, and my job is very stressful, but the work is exciting ... I like risk, and I can make a lot of money.

3b Read again. Guess the meaning of the words in bold and the part of speech. Then check your guesses in the Wordlist. Say how you could guess.

3c Say why Susan, Rita, Mike and Josef like their job.

4a Read and find what kind of job you would like/not like.

- | | |
|----------------------------------|---|
| 1 work in an office | 7 work during the evening and at weekends |
| 2 work outdoors | 8 work for a big company |
| 3 work indoors | 9 have a lot of responsibility |
| 4 deal with a lot of people | 10 help people |
| 5 spend a lot of time travelling | 11 work with my hands |
| 6 work with children | 12 wear a uniform |

4b Work in pairs. Share your ideas about jobs.

e.g. I would enjoy working outdoors, because ...

Remember:

Find **someone who** earns a lot of money.

I wouldn't like **a job where** I have to wear a uniform.

Work is **anything that/which** you get paid for.

I don't want **a job which** is very demanding.

Lesson 2 Personal qualities and jobs

1a Read the words and guess the professions.

Do you know any more which end in -ist?

biology – biologist economy – economist sociology – sociologist
ecology – ecologist hair style – stylist

1b Say what you know about these professions.

e.g. A biologist is a person who studies people's bodies, animals and plants.

1c These professions are popular today in many countries. Why?

e.g. An ecologist works with the environment. Maybe s/he checks pollution or organises the protection of trees or animals. Pollution is a problem for us now.

2 Say what you want to be and why.

3a Read the extract from the book 'How to choose a profession' and choose the main idea.

- | | |
|-------------------------------|---|
| 1 how to get a job in a shop | 3 about personal strengths and weaknesses |
| 2 how to choose the right job | 4 how to become an engineer |

It's not difficult to see that having certain abilities means that you can do certain jobs much better. If you have an ability to make friends quickly and get on with other people, it would be easier for you to work in a shop. If you are good at technical machinery and interested in operational problems, you should be an engineer. We should think about our personal strengths and weaknesses so that we can choose something more in line with our natural abilities.

3b Read and identify your personal qualities.

I enjoy physical activity. I am active.

I like to be around a lot of people.
I am sociable.

I have a lot of energy. I am energetic.

I like to be around children. I am fond of children. I am good with children.

I enjoy being outside. I am an outdoor type.

I like to talk on the telephone. I am good with people.

I like sitting at a desk. I am good at paperwork.

I am a quiet person. I am quiet.

I like to fix things and figure out how things work. I am good at problem-solving.

I like being around animals and taking care of animals. I am fond of animals. I am good with animals.

13c Write what qualities you need for your future profession.

e.g. I want to be a teacher. A teacher should love children, be patient and open-minded.

 **4a** Listen to the interviews and copy and tick the qualities people need for their job.

Quality you need for your job	Mary Cliff a hair stylist	Mark Davis a waiter	Sarah Hodson a clerk
have a friendly manner be smart be strong be pleasant be polite be interested in fashion and beauty be responsible			

 **4b** Write the qualities people need for these jobs:

1 dentist 2 lawyer 3 policeman 4 computer programmer

full-time job part-time job flexi-time job

1b Answer the questions.

- 1 What kind of job do you want – full, part or flexi-time?
- 2 What are the advantages and disadvantages of a full/part/flexi-time job?

 **2a** Listen to Anna Moran and say what you like and dislike about her job.

3a Read the letter and say what 'Take your daughter to work' day is.

Dear Zilola,
It was great to hear from you. I always enjoy reading your letters.

Yesterday was 'Take your daughter to work' day. It's not a holiday like Women's Day in your country. It's the day when mothers (and fathers) take their daughters to work with them. The daughters spend the whole day with them at work. They see what their parents do and they begin to understand the world of work. Everyone takes part in it when they are in Year 11 at school, that is when they are 15-16. It helps us to prepare for getting a job.

I really enjoyed the day. When we arrived at work there were other women with their daughters. It was interesting to see what it is like to be in an office all day, to answer the phone, to type a letter and I did some filing too, which was a bit difficult. I found out I'm not very good at A,B,C... I was very proud to see that people respect my mother for her efficiency and her pleasant manner, which helps her to solve problems. Now I know what she means when she talks about 'her team' and being part of a team. They all work together, helping each other. It was a nice feeling. I felt part of it too. We took some photos, which I'll send next time I write.

Looking forward to hearing from you soon.

Love

Christy Moran

 **2b** Listen again and complete Anna's timetable for a day.

e.g. 7.30 am - Anna gets up
8.30 am 9.00 am 11.00 am
8.45 am 10.30 am 11.30 am

2c Answer the questions.

- 1 Do your parents have a full/part/flexi-time job?
- 2 How do your parents get to work?
- 3 Have you ever visited the place where they work?

3b Answer the questions.

- 1 Why does Christy like 'Take your daughter to work' day?
- 2 Why does she think it is useful for her to spend a day at work with her mother?
- 3 Why is Christy proud of her mother?

Remember:

a part-time job n+n=adj n
It's the day when ...

4 Work in groups. Ask and answer the questions.

- 1 Have you ever visited your parents' workplace? Would you like to?
- 2 What do you want to know or learn there?
- 3 Do you want to do the same job as your parents? Why/why not?

Lesson 5 A worthwhile job

- 4 You don't need a ... or a You can manage without a ... but you ... can't manage without a So I am the most important and I must be saved.

2 Presentation and judging

a In your group, take turns to explain why you should be saved. The rest of the class will listen. When all the groups have finished, the class will vote – and you will know which one person will be saved!

b You will listen to the members of other groups explain why they should be saved. For each group, write the name and job of the person who you think gives the best reasons to be saved.

e.g. Group 1

Saadat – architect. She's right, everyone needs buildings to live in. Without them we would die of cold and heat.

3 Voting

You may vote for one person in each group to be saved. Use the notes you made while you were listening to help you. The person in each group who gets the most votes is the winner.

UNIT 3 EDUCATION

Lesson 1 Education in Uzbekistan and the USA

1 Look and answer the questions.

Types of schools	Age	Grade
Kindergarten	3-6	0
Secondary school	7-16	1-9
Specialized school	6-16	1-9
Specialized boarding school	7-16	1-9
Academic lyceum and college	16-18	10-12

- 1 What types of school are there in Uzbekistan?
- 2 Did you go to kindergarten? What age do children go there?
- 3 How old were you when you started school? What is the usual age for starting school?
- 4 When you finish class 9, where will you go?

2a Read about education in the USA. Guess the meaning of the words you don't know. Check your guesses in the Wordlist.

Education in the USA

There are five types of schools in the US education system. They are: kindergarten, elementary school, middle school, high school and private school. Children go to kindergarten when they are 5 years old. They go to elementary school from ages 6 through 11 (1-5 grades), middle school from ages 12 through 14 (6-8 grades) and high school from ages 15 through 19 (9-12 grades).

About 90 percent of all children attend public school, which is free. The other 10 percent go to private schools, which often include religious education. They are similar to the public schools but parents must pay for their children to go to these schools. About half of all private schools are run by Catholics.

In the United States, education is mainly the responsibility of state and local governments, not the national government. The amount of money spent on education differs from state to state. The subjects studied also differ a little. The school year usually runs from September to June. At the high school level, there are some specialized schools. They include schools that emphasize vocational subjects like business or auto mechanics. Most high schools are general schools. High school students are often involved in the non-academic activities that their school offers – for example, in drama clubs, sports teams, or the school newspaper.

2b Read again. Copy and complete the table for the USA.

Types of schools	Age	Grade
Kindergarten		
Elementary		
Middle		
High		

2c Work in groups. Find and discuss similarities and differences in education between Uzbekistan and the USA.

e.g. In Uzbekistan and in the USA children go to kindergarten, but in Uzbekistan they go at three years old and in the USA at five years old.

3 Find the following words in 2a. Write what these words are in British English. Check your answers in the Wordlist.

emphasize specialized auto ages 15 through 19

Lesson 2 Education in England and Wales

1a Make phrases with the word 'school' and guess the meaning.

nursery primary infant junior comprehensive public private secondary
middle boarding grammar

e.g. nursery school

1b Read and check your guesses.

Education in England and Wales

There are four types of schools in the English and Welsh education system – nursery, primary, secondary and private schools. Scotland has its own education system, which is different. Children start school at the age of five, but there is some free nursery-school education before that age. The state nursery schools are not for all. They are for some families, for example for families with only one parent. In most areas there are private nursery schools. Parents who want their children to go to nursery school pay for their children under 5 years old to go to these private nursery schools.

Primary school is divided into infant school (pupils from 5 to 7 years old) and junior school (from 8 to 11 years old). In some areas there are middle schools instead of junior schools, which take pupils from 9 to 12 years old. Primary schools have from 50 to 200 pupils.

Secondary schools are usually much larger than primary schools and most children – over 80 per cent – go to a comprehensive school at the age of 11. These schools are for all. Pupils do not need to pass an exam to go to these schools. These schools are large. They have from 1,200 to 2,500 pupils. School lasts all day in the UK, so there is only one shift. In some areas there are grammar schools. Pupils must pass special exams to go to these schools. Some parents prefer private education. In England and Wales, private schools are called public schools. They are very expensive. Only 5 per cent of the school population goes to public schools. Public schools are for pupils from 5 or 7 to 18 years old. Some public schools are day schools, but many public schools are boarding schools. Pupils live in the school and go home in the holidays.

1c Answer the questions.

- 1 What types of schools are there in England and Wales?
- 2 What age do children go to school in England and Wales?
- 3 What types of primary schools are there?
- 4 What is the difference between comprehensive schools and grammar schools?
- 5 What are private schools called in England and Wales?

1d Copy and complete the table.

Types of schools	Age
Nursery	
Infant	
Junior	
Comprehensive	
Private	

1e Find similarities and differences in education between Uzbekistan, the USA and England and Wales. Use 'is different from' and 'is the same as' and 'is not the same as'.

e.g. Kindergarten in the USA is different from kindergarten in Uzbekistan and in England and Wales. Children in the USA go to kindergarten when they are 5 years old, and in Uzbekistan children under 6 years old can go to kindergarten. Nursery school in England and Wales is a little different but the same as kindergarten in Uzbekistan. Children under 5 years old can go to nursery school.

2a Look at the text above. Find and translate the sentences with ‘which’.

2b Translate the following sentences.

1 About 90 percent of all children in the USA attend public school, which is free. The other 10 percent go to private schools, which often include religious education.

2 American specialized schools include schools that emphasize vocational subjects like business or auto mechanics too. High school students are often involved in non-academic activities that their school offers – for example, in drama clubs, sports teams, or the school newspaper.

3 In Estover Community College in England, pupils develop their understanding of the past, which will help them to live successfully in the present.

4 Estover Community College teaches pupils who will be responsible people in the future.

Remember:

Adding extra information – use a comma and which. Formal and mostly in writing.

e.g. About 90 percent of all children in the USA attend public school, **which** is free.

Telling us which person/thing/place/time – no comma and who/which or that/where/when.

Use in speech.

Where’s the pupil **who** needs a copy of the textbook?

Referring to a whole sentence – which.

Lesson 3 Estover Community College

1a Read the text. Guess the meaning of the bold words. If necessary look in the Wordlist.

2b Find and write the subjects which will help to fulfil the College's curriculum aims in 1a.

2c Find the subjects pupils of your age study, and talk about the similarities and differences with Uzbekistan.

e.g. In Uzbekistan many of the subjects we study are the same as ... but some are different. For example, we study ... but in England and Wales pupils of our age study ...

3 Listen to the Principal of Estover Community College and say what the curriculum does for students.

e.g. The curriculum offers a wide education.

Lesson 4 A day in the life of a pupil

1a Read and translate the sentences.

- 1 Before reading a book, I look through it.
- 2 Before going to school, I check my school things.
- 3 Before speaking, I think.
- 4 After doing my homework, I have a rest.

e.g. When do you get up? What do you do before going to school?

2b Work in groups. Interview your partners. Use your questions.

2c Report your interview.

e.g. Tohir gets up at 7 o'clock but Salim gets up at 6.30. Before going to school, both of them have breakfast.

3a Read about an English pupil's day. Guess the meaning of these words.

registration standard a set book instead the top set available

A typical day at school starts at 8.50 a.m. with the first bell. We must go to registration, which lasts until 9 o'clock. After registration, lessons begin. Year 12 and 13 pupils attend the subject lessons that they have chosen, either at GCSE (General Certificate of Secondary Education) level or at 'A' level standard. My first lesson on a Wednesday morning is English. During this lesson, we usually read a set 'A' level book, and discuss it. For English we have several set books – you know, works of literature which we have to study for the exam: a Shakespeare play, a novel ... etc. After this I have two 'free' periods. Lessons last 45 minutes each.

The courses chosen by Year 12 and 13 pupils are all mixed, and last for different amounts of time, depending on the subjects you have chosen. For example, pupils who do science have to do practical laboratory work and that takes a long time. So we have some free periods. In these periods we work privately and independently. After my two free periods, it's breaktime. During the break, we can buy drinks, sweets and crisps from the school shop. I'm on a diet now so I try not to buy sweets during the break. I bring an apple to school instead. After break I have double geography. I'm in the top set. You know, there are two groups for geography so the fastest pupils are in the top set and the slower pupils are in the second set.

Then it's lunchtime. Many pupils bring sandwiches for lunch, but hot and cold meals are available in the school canteen. School orchestra practice is at 1.45 on Wednesday. It's quite a big orchestra with about 30 members. Lessons begin again at 2.20. Most Year 12 pupils have personal and social education on a Wednesday afternoon, which is held in the library, and taken by the Principal. This lesson lasts until 3.20 – the end of school.

After school I go home and spend a couple of hours on my homework. Three times a week I go to the sports centre. I'm a member of the gymnastics club. Sometimes I read novels. After doing my homework or going to the sports centre, I mostly watch TV. I like films, especially thrillers. Before going to bed I often chat to my friends on the phone. I go to bed around 10 o'clock.

3b Copy and complete the table for the English pupil.

Time the school starts:
Length of lessons:
Number of lessons:
Routine things pupils do before lessons:
Types of lunch:
Time school ends:
Activities after school:
Evening activities:
Time she goes to bed:

3c Talk about the differences between Uzbek and English pupils' days.
e.g. Here school starts at 8 o'clock but in England and Wales it starts at 8.50.

Remember:
After doing my homework, I have a rest.
Before going to bed, I brush my teeth.

Lesson 5 State versus private education

1 Work in groups. Answer the following questions.

- 1 Do you know what private school is? Have you heard about it?
- 2 Do we have private schools here in Uzbekistan?
- 3 What do you think of private school? Would you like private schools in Uzbekistan?
- 4 Do you think we will have private schools in the future? Why/why not?
- 5 Which schools do you think are better: private or public schools?

2a Read the interview with Vince Aquila, the Principal of an American private school – the Catholic High School, Huntsville, Alabama and answer the question.

Would you study for the price shown in the text if you lived in America? Why/Why not?

- Interviewer: What percentage of students attends private schools here in Huntsville?
Principal: There are approximately 22,000 students in Huntsville City Schools. We have 18 private schools. About 5-6 percent out of the 22,000 go to private schools.
- Interviewer: What age groups are the private schools for?
Principal: Private schools accept students from the elementary school ages. So there are private elementary, middle and high schools. Private elementary and middle schools are mostly in the same building.
- Interviewer: Why do parents send their children to private schools?
Principal: Parents prefer private schools because private schools teach religion, have smaller classes and have stricter discipline compared to public schools. Also there are greater opportunities for pupils to attend extra-curricular activities.
- Interviewer: How much does it cost to go to a private school? How much is the cheapest and the most expensive?
Principal: Private elementary and middle schools cost \$3,000 for a year. For private high schools like ours it costs \$4,700 for a year. The highest price is \$8000. In that school each pupil gets a laptop computer and other facilities that are superior to other schools.
- Interviewer: Are there any famous private schools? What are their names? Where are they in the US?
Principal: I don't know about other states, but the most famous here is Randolph Academy.
- Interviewer: Do private schools have a uniform?
Principal: Yes. For example our uniform is beautiful. Look around and you'll see it.
- Interviewer: Are private schools co-ed or single sex?
Principal: All of the private schools in Huntsville are co-ed. But I know some single sex private schools in Washington DC.

2b Work in groups. Discuss the questions and write notes.

Lesson 1 School rules in Uzbekistan, the UK and the USA

1 Work in groups. How well do you know your school rules? Write the rules you know.

e.g. Come to school on time.

2a Read Estover Community School Rules. Which rules are the same as yours? Which are different? Are there any rules that you would like to add to your own school rules?

Hello! My name's Steve. I'm fifteen and I'm in Year 11 at Estover Community School. Our school rules are very strict – but I think that's good. We need clear rules!

As a member of this school I will:

- listen when a member of staff is talking to me
- concentrate and allow others to learn
- respect people and their property
- wear the school uniform correctly
- come to school with an appropriate hair style and colour
- eat and drink only in the canteen
- walk in the corridor
- arrive on time
- prepare everything for all lessons (pens, pencils, ruler, crayons, calculator, geometry set, English dictionary)

2b Read Pleasant Valley High School Rules. Which rules are the same as yours? Which are different? Are there any that you would like to add to your school rules?

Be in the yard no earlier than 7.30 a.m. and no later than 8.30 a.m.

Be at the bus stop on time. Buses can't wait.

Keep your head and hands inside the bus. Move around school quietly.

Don't bring chewing gum to school.

Don't bring toy guns, water pistols, radios, tape-players, electronic games or cell phones to school.

Hi! I'm a junior at the Pleasant Valley High School. Tenth and eleventh grade students are called juniors, twelfth are seniors. Look at our school rules. Do you think they are strict?!

Don't spend so much time improving yourself that you have no time left to give feedback to others.

Be better than you were yesterday.

Don't wear shorts, very short skirts, high-heeled shoes, caps or hats on the school site.

Don't bring jewellery to school. If you need to leave the campus during school hours, you must have written permission. And you must sign out at Reception before you leave. If you are absent from school, you must bring a letter from your parents or guardian explaining the absence.

Lesson 2 Ways of expressing rules

1a Look at the school rules from the UK and the USA in Lesson 1 again. Find and write words which mean:

- 1 the things which belong to someone
- 2 the place where the school is and all the school buildings
- 3 rings, earrings, etc. made of gold and silver
- 4 the place where visitors to the school must report and where pupils must report if they leave the school
- 5 the person who is responsible for you but is not your mother or father
- 6 a letter which says you can leave

2 Translate the school rules in 2a in Lesson 1.

13 Work in pairs. Imagine pupils are in charge of the school. Write your rules. You can use the words in the cloud.

e.g. Teachers must wear uniform.

1b Look at the school rules from the UK and the USA again. How many different ways of expressing the rules can you find? Name the different structures/tenses.

1c Look and say: What other words can be used to say rules? Which way of saying rules in English do you like best?

Pupils must wear identity badges at all times.

Pupils should keep their fingernails short and clean.

No animals should be brought to school.

smile, no homework, high marks,
be beautiful, sing the lesson,
lessons in the garden, be kind,
not be angry

Lesson 3 School Discipline Policy

Do you think it was good for you?

2a Find these words in the Wordlist. Write the part of speech and the translation.

2b Match the words in 2a with these nouns.

punishment expulsion detention truancy permission exclusion bullying maintenance
tolerance

2c Say the words in 2a and 2b. Find the words where the stress is different in the verb and the noun.

2d Chain drill.

e.g. Pupil 1: detain.

Pupil 2: detention.

Pupil 3: permit.

Pupil 4: permission.

3a Read the text and answer the questions.

1 Who is the text written for?

2 What does the writer of the text want?

3 The school uses two ways to help pupils behave well. What are they?

Estover School Discipline Policy

We expect a high standard of behaviour from our pupils at all times. We hope that parents will support us in developing the good behaviour of their children. A copy of the school rules is given below for parents' information.

It is important that pupils behave well in class. Bad behaviour affects the learning of other pupils and is unacceptable.

Bullying is not tolerated in this school. There is a separate policy on bullying at the back of this information pack.

Truancy is a serious matter. Repeated truancy may result in exclusion from the school. Teachers and pupils are responsible for maintaining discipline. Our policy is to encourage good behaviour. The form teacher will help pupils with personal problems, and give academic advice about exams and school reports. All our teachers are trained to help pupils improve their behaviour. Teachers will punish pupils who break the rules. If the matter is serious, pupils must see the Head Teacher.

3b Work in groups. Talk about your School Discipline Policy.

e.g. In our school all pupils must behave well in school.

Lesson 4 School punishments

1a Work in pairs. Answer the questions.

- 1 Do your parents punish you? How?
- 2 Do your teachers punish you? How?

1b Read the second part of Estover School Discipline Policy and answer the questions.

Which punishments are the most serious? Why?

Punishments used in Estover School include:

Lines: When a teacher gives a pupil 'lines' s/he must write the same sentences again 50 or 100 times. For example, 'I will never be late for school again'.

Detention: If a pupil is on detention s/he must stay after school to do extra work, e.g. lines for half an hour.

Report: If a pupil is on report s/he has a card which s/he gives to the teacher at the end of every lesson. Each teacher reports if s/he has behaved well or badly.

Exclusion: If a pupil is excluded s/he can't come to school for a few days or weeks. His/her parents must see the Headmaster. Exclusion is serious.

Expulsion: If a pupil is expelled s/he is sent away from the school. This is very serious. The pupil has to go to another school where the teachers all know about his/her bad record.

Please note: It is against the law to use physical punishment. No pupil can be hit, beaten or punished in any other physical way.

1c Compare the punishments with punishments in Uzbekistan. Use 'the same as', 'different from' and 'not the same as'.

e.g. Physical punishment is against the law in the UK the same as in Uzbekistan.

2a Look and say what is happening in this picture.

1d Work in groups. Read the text again and say what you think about the punishments. Agree or disagree with your classmates.

e.g. I think lines are good/bad because ...
So do I. I do too./Sorry, I don't agree ...
I don't think detention is good because ...
Nor do I. Neither do I./Sorry, I don't agree ...

2c Write T for True and F for False

2b Read and check.

Since 1066 there have been forty monarchs in England, thirty-five kings, five queens and seven dynasties. Only fourteen monarchs have stayed on the throne for more than twenty-five years, one of them is Queen Elizabeth II.

Every royal house or 'dynasty' has a surname. In Britain's case that name is Windsor. Queen Elizabeth II is the fourth Windsor monarch. She is also the head of a very large family. She has three sons, one daughter, and many grandsons and granddaughters.

The most famous British royal home is Buckingham Palace. But it is not the only one. The Queen and her family have several other castles, official residences and country houses too. Today Buckingham Palace is the best known palace in the world. It stands at the end of a long boulevard called The Mall and it has 600 rooms on three floors, 400 staff, and 300 clocks.

After Queen Elizabeth II, Britain's next monarch will probably be Prince Charles, the Prince of Wales. He will be King Charles III. Even further in the future his son, Prince William, will become king too. His title will be King William V. The National Anthem is called 'God save the Queen'. But if Prince Charles becomes King, it will be 'God save the King'.

- 1 How many parts does the UK Parliament consist of?
- 2 Who elects the Prime Minister of the UK?
- 3 What is another name for the Houses of Parliament?

Good morning. My name is James McLenan. I work here at Westminster. And I'm going to be your guide to the House of Commons. Britain is a parliamentary democracy with a constitutional monarch – Queen Elizabeth II – as Head of State. The British Constitution, unlike those of most other countries, is not written in one document. Instead it is made up of statute law, common law and conventions from the last 1,000 years. Parliament is the legislature and the supreme authority. It consists of three elements – the Monarchy, the House of Lords and the House of Commons. These meet together only for special ceremonies. The House of Lords and the House of Commons meet in the Houses of Parliament, which are known as Westminster. The government is formed by the political party with the most MPs (members of parliament). The Queen then appoints its leader as Prime Minister. The Prime Minister's official residence is at 10 Downing Street in central London. As head of the government, the Prime Minister appoints about 100 ministers, 20 of them are in the Cabinet – the senior group which takes major policy decisions.

- 2 What is the name of the government of the USA?
- 3 What is the name of the place where the government buildings are?

Hello I'm John Tolbertson. I'm a representative of the Senate and I'm going to tell you about Washington, which is the nation's capital. The city of Washington is in the District of Columbia on the Potomac River. Its population is more than 3.4 million. The US Congress meets in the Capitol, where government officers discuss new laws and make decisions. Under the constitution the states delegate much of their sovereignty to this central government in Washington. But they keep many important powers for themselves. Each of the 50 states, for example, retains the right to run its own public school system, to license its doctors and other professionals, to provide police protection for its citizens and to maintain its roads.

Lesson 1 Political parties in Uzbekistan and Great Britain

1a Work in pairs. Answer the questions.

- 1 How many political parties are there in Uzbekistan?
- 2 What are they?
- 3 What electoral system does Uzbekistan have?

1b Listen and check your answers.

2a Read and answer the questions.

- 1 What is the difference between the British and Uzbekistan electoral systems?
- 2 What is similar?

Every five years, British people over the age of 18 can vote in a general election. People vote for the candidate they want in their region. The candidate who wins becomes their MP (Member of Parliament) in the House of Commons, even if he or she gets only one vote more than the candidate who is second. This is called the first-past-the-post system. The first-past-the-post electoral system in Britain usually makes two parties powerful, while smaller parties do not have many MPs. Since the 1920s, the two main parties have been the left-wing Labour Party and the right-wing Conservative Party. The Liberal Democratic party is not happy with the first-past-the-post electoral system. This is because it is a party which does not win many seats in Parliament, but comes second in many regions. It would prefer a system of proportional representation where the number of MPs is based on the number of people who vote for the party in the whole of the country.

2b Look at the diagrams and answer the questions.

- 1 What party has the highest percentage of votes?
- 2 What party has the highest percentage of MPs?
- 3 Why is the percentage of votes and MPs different?

MPs

2c Talk about the parties in the diagrams in 2b.

The number of Conservative MPs is fewer/ lower than the number of Labour MPs.

Lesson 2 Local government

How is local government in Uzbekistan organized?

1b Read and compare local government in Uzbekistan and in the UK.

Local Government in the UK

England and Wales are divided into:

53 County Councils

Normally County Councils have between 250,000 and 1 million residents. County Councils provide the large-scale services – motorway maintenance, the police and the fire service.

369 District Councils (in London called Borough Councils)

They provide the smaller-scale services like refuse collection.

Scotland and Northern Ireland have their own systems.

2 Listen and answer the question.

Why is local government important for people?

3a Work in groups. Imagine you are councillors. Look at the pie chart and make a finance plan for a year.

Green Party USA Statement on the Disasters

All good people abhor the death and destruction of this past week. People of the world want peace. But they also want justice.

Looking past today, we need to learn how to stop terrorism, how to break the cycle of hatred and revenge. We need to come up with JUST AND POSITIVE ALTERNATIVES.

Clearly, the way countries now deal with one another isn't working. The world needs leaders who will set good examples for Earth's peoples.
Can we not be grown-ups and use this latest Disaster as a starting point for working together towards peace? There is no security in revenge, only a continuous escalation of killing once the hatreds are solidified.
What can we do so people do NOT feel they have to attack others?

HOMEWORK

Lesson 1 Political parties in Uzbekistan and Great Britain

Read *A Guide to British Political Parties*. Write a Guide to a political party in Uzbekistan.

A Guide to British Political Parties

The Conservative Party

History The party developed from the group of MPs known as the Tories in the early nineteenth century and still often known informally by that name (especially in newspapers, because it takes up less space!)

Traditional outlook The party stands for hierarchical authority and minimal government interference in the economy. It gives great importance to national defence and internal law and order.

Organisation The leader has a great degree of freedom to direct policy.

The Labour Party

History It was formed at the beginning of the twentieth century.

Traditional outlook It stands for equality for the weaker people in society, and for more government involvement in the economy.

Organisation In theory, policies must be agreed at the annual conference, but in practice, the leader has a great deal of power.

Lesson 2 Local government

Read and answer the questions.

- 1 What are the general policies for Chiswick School?
- 2 Who controls the school?
- 3 Who can be a governor of the school?
- 4 What is the difference between the way Chiswick School is managed and your school?

Like most schools in Britain, Chiswick School is under the control of elected local government – not the central government in Westminster. The council of the London Borough of Hounslow pays for the school, and makes general policies for it – for example, the council decided that it should be co-educational and not single-sex. Hounslow is the employer of the teachers and other staff, such as cleaners. The council is a democratic body, with elections every five years. So if the people of Hounslow do not like the way the Labour Party runs their schools, they can vote Conservative or Liberal Democrat.

More directly in control of the school are the governors – a committee including councillors, the head teacher, a parent, a teacher and a representative from the Church. They meet about once a month. On a day-to-day basis the head teacher runs the school.

- 2 Who wants to sell things for a company?
- 3 What will you sell?
- 4 How will you tell people about your company and products?
- 5 How will you get your products to your customers?
- 6 How will you make sure customers buy your products and not another company's products?

1b Find in the Wordlist and translate.

2a Match the words and the definitions.

1 promotion 2 marketing 3 advertising	a telling customers about your products b persuading your customers to buy your products c deciding on a product, its price, how to get it to the customer and making promotion
---	---

2b Work in pairs. You are all customers or consumers. You buy and use products. What persuades you to buy a product?

see on TV hear about on the radio read an advert in a magazine
a friend recommended it cheap price evaluation in the newspaper
it looks nice

e.g. I bought ... because I saw an advert for it on TV.

2c You are going to hear a talk about marketing. You will listen to the programme twice. Listen and complete the notes.

- 1 The four parts of marketing are ...
- 2 The four parts of promotion are ...

2d What is the difference between a wholesaler and a retailer? Translate these words into your mother tongue. Do you have any wholesale markets in your region?

3 We asked some teenagers their opinions about promotion. This is what they said. Do you agree with them? Work in groups and say what you think.

What's promotion?

In my opinion promotion is advertising. It helps companies to develop and to be famous.

It seems to me that promotion is to make money. It helps to pay for TV, radio, newspapers and magazines.

I think promotion is the main element of business. Without promotion companies cannot achieve anything.

Promotion can be helpful. I wrote to a company in my area and they gave us paper for our projects. We all felt very happy and we like that company.

Lesson 2 Special offers

1a Work in groups. Look at the promotions or 'special offers' you found. Can you find examples of:

- a price cut or discount
- a free gift
- a free small size extra product (called a sample)
- a money back offer
- a coupon (a small piece of paper which you can use to get the next packet you buy cheaper)
- a token (a piece of paper printed on the packet. You collect two or three and then you can get a free packet or a cheaper packet)

1b Answer the questions.

- 1 Which kind of promotion do you like best?
- 2 Which ones are very popular in Uzbekistan?

2a Look at the logo and answer the questions.

- 1 What kind of company is it?
- 2 Do you know any other companies that sell the same products?

2b Read and answer the questions.

- 1 Why do companies develop new promotion techniques?
- 2 How did the customer make money with this promotion?
- 3 How did Shell make sure the promotion wouldn't cost them too much money?
- 4 What evidence is there that 'Make Money' was a successful promotion?

New promotion techniques

Techniques which are used to win customers include coupons, samples, money back, competitions, etc. Many of these techniques are over a hundred years old. New promotion techniques are not often developed and, even when they are, there is always a risk that they will not please customers. So why do companies still try to develop new promotion techniques? The answer is because companies which do develop a successful new promotion can win many customers because they are the first to use the technique.

The oil company Shell invented a new "matching-half" promotion called 'Make Money'. Each time people bought a Shell product they were given half of a bank note. If they got the other half of the note they could get the money for the two halves. So for example, if they got two halves of a 500 soum note, they could get 500 soum in cash in the Shell shop. The competition was very successful because it was simple, it was easy to win and people liked getting cash immediately. Shell liked it because it could control the amount of money it had to pay. It printed a limited number of matching halves. 'Make Money' was a very successful promotion and paid for itself many times over. It helped Shell to increase its sales by 50% over a ten week period. When the promotion was over, sales remained high for several months. This was because some motorists who had changed to buy Shell products during the promotion continued to buy them after the promotion ended.

3 Look at the pictures and answer the questions.

- 1 Where can we see this kind of promotion?
- 2 Which of these promotions might attract you? Why?
- 3 Which ones would you ignore? Why?

Lesson 3 The power of advertising

1a Work in groups. Look at the adverts you wrote down in your exercise books and say:

- 1 where you found them
- 2 what products are advertised
- 3 which adverts you like and why
- 4 which you don't like and why

e.g. I found this advert on a hoarding in the middle of the road. It advertises a new fruit drink. I like it because it shows a happy family in Uzbekistan. They look healthy and happy and that is how I would like to feel too.

1b Answer the questions.

- 1 What jobs are there in the advertising industry?

e.g. There is the person who writes the advertising slogan.

- 2 Would you like to work in the advertising industry? Why/why not?

- 3 What kind of knowledge, skills and personal qualities do you need to work in advertising?

e.g. You need to ...

- 4 How do adverts work? Why do they influence us, do you think?

be creative be good at drawing be original be witty
have a good sense of humour
know how to touch people's hearts
be good with language
know how people's minds work
be able to work fast
be able to work under pressure
be able to accept failure

2a Read and check your answer to question 4 in 1b.

Advertising as persuasion

Advertisements want to persuade us to buy particular products.

How do they do it?

Let's imagine You're watching TV. It's a hot evening. You feel thirsty. You see an advert for a refreshing drink. You see people looking cool and relaxed. You notice the name of the refreshing drink because you think it could be useful for you to satisfy your thirst.

Advertisers study how people learn so that they can 'teach' them to respond to their advertising. They want us to be interested, to try something, and then to do it again. These are the elements of learning: interest, experience and repetition. If an advert can achieve this, it is successful. If an advert works well, the same technique can be used to advertise different things. So, for example, in winter if the weather is cold and you see a family having a warming cup of tea and feeling cosy, you may be interested and note the name of the tea ... Here the same technique is being used as with the cool, refreshing drink.

If advertisements are to be learned, there is a need for lots of repetition. But advertisers have to be careful because too much repetition can result in consumer tiredness and the message may fall on 'deaf ears'.

Consumers learn to generalize from what they have learned. So advertisers sometimes copy a highly successful idea that has been well learned by consumers. For example, the highly successful 'Weston Tea Country' advertising for different tea has led to 'DAEWOO Country' for automobile dealers and 'Cadbury Country' for chocolate bars.

2b Read the text again and answer the questions.

- 1 Why do we need to see advertisements several times?
- 2 Why do advertisers use 'generalization'?

3 Work in groups. Write an advertising slogan for the product you described in Lesson 2 Activity 4a.

Lesson 4 Advertising standards

1 Find in the Wordlist and translate.

claim code of practice decent authority withdraw

2a Work in pairs. Read the adverts. Do you believe their claims? Why/why not?

1

The best juice in Uzbekistan

2

The world's favourite juice

3

Simply the best!

2b Work in pairs. Answer the questions.

What other adverts do you know?

Do you believe them?

3a Read about the Advertising Code and say what the purpose of the code is.

What is an advertising code?

In some countries advertising is controlled. For example, in Britain there are rules called a 'Code of Advertising Practice'. The code contains the standards for advertisements. It guides companies about what they can claim in their adverts. It is also the standard for evaluating adverts. Adverts must be honest, fair and decent. So, for example, if an advert claims that a car is the fastest in the world, the company must be able to show that this is true.

3b Read and say what happens if an advert breaks the code.

What happens if an advert breaks the code?

There is an authority and a committee which checks adverts. If you have a complaint, you can write to them. Sometimes adverts break the regulations. In such a case the Advertising Standards Authority requests the company to withdraw the advert. Usually the company agrees. But if they do not, the Authority can 'persuade' them to do so. They can do this by publishing a report. Companies do not like this because everyone can read and hear about their dishonest or unfair advertising in the media. This makes people think that the company is bad, not just the advert. So the company gets negative advertising. Copies of all Advertising Standards Committee Reports are available in public libraries.

3c Work in pairs. Look at the adverts in 2a and answer the questions.

- 1 Would they pass the code? Why/why not?
- 2 How could you re-write them to make them pass?

4a Read and translate the sentences. Read Grammar Reference 14.

It's worth having an advertising code.

It's not worth breaking the code.

4b Work in pairs. Answer the questions.

1 Do you think that many adverts in Uzbekistan would pass this code?

2 Do we have a code in Uzbekistan?

3 Do you think it would be a good idea to have one?

e.g. Yes, it's worth having an advertising code because ...

Advertisers would soon find out it's not worth breaking the code ...

4 What would you include in it?

e.g. If we had an advertising code in Uzbekistan, I would include ...

decent clear fair true
only for healthy products
honest beautiful moral clear
value for money
only for useful products
good according to the culture of Uzbekistan
informative

Remember:

It's worth having an advertising code.

It's not worth breaking the code.

1 Uzbekistan is the world's fourth cotton producer and the second largest cotton exporter. Only two countries in the world – the USA and Uzbekistan – have factories producing machinery for planting, growing and processing cotton. Uzbekistan is the only state in Central Asia with a silkworm breeding industry. Uzbekistan also has a strong textile manufacturing industry. The Tashkent and Andijan textile plants have won international prizes such as the 'Golden Globe' prize (awarded by Denmark) and 'The Golden Star' prize awarded by Holland to Tashkent garment manufacturers 'Qizil Tong' and 'Yulduz'.

2 Uzbekistan is the seventh largest gold producer. It also has large amounts of other metals such as copper, zinc and uranium. But the republic imports steel products from the CIS countries, mainly from Russia and Kazakhstan.

3 Uzbekistan has a modern energy sector with 19 hydro-electric power stations. Enough electricity is produced to satisfy the needs of the national economy and electricity is also exported to neighbouring states. Uzbekistan has large oil and gas reserves.

4 The chemical industry is based mainly on its own raw materials. Uzbekistan exports nitrogen and phosphate fertilizers.

5 There are a lot of joint ventures in Uzbekistan such as 'UzBat' (tobacco industry), 'Ucell' (telecommunications) and 'Amantaytau Gold Fields' (gold extraction). A car manufacturing plant has been built jointly with the US concern 'General Motors' and produces a number of very popular models. Uzbekistan has a reputation for the quality of its manufacturing and services and this is reflected in the international prizes it has won and the number of joint ventures. Uzbekistan continues to seek partners for joint ventures in order to increase foreign investment in the country and so boost the economic growth of the country.

If you are interested in finding out more about the economy of Uzbekistan, visit the official government website at <http://www.uzbekistan.org> or www.gov.uz

Industry in the UK

Britain is one of the most highly industrialised countries in the world: for every person employed in agriculture 12 are employed in industry. The original base of British industry was coal-mining, iron and steel, and textiles. Today the most productive sectors include high-tech industries, chemicals, finance and the service sectors, especially banking, insurance and tourism.

England is a steel producer for shipbuilding and car manufacture. Approximately 25 million tons of steel are produced annually. Sheffield and Leeds are important steel centres. Glasgow and Newcastle became great centres of engineering and shipbuilding. Liverpool is the centre of aerospace engineering, chemicals and car manufacture. Manchester is one of the world's centres for the manufacture of cotton. Manchester's industries also include aircraft, machinery, chemicals and electronics. Grimsby is Britain's most important fishing port.

2b Work in pairs. Ask, answer and complete.

2 Work in three groups. Organize a joint venture. Draw a poster to explain your joint venture to the class.

- 1 Decide on roles. Half of the group should be from Uzbekistan. The other half are representatives of a foreign company.
- 2 Decide what the joint venture will manufacture.
- 3 Agree on who will do what and make two lists. In the cloud are the things you should agree on. You can add more if you like.

buy materials, manufacturing, sales, design, training of partner staff, financing

- 4 Agree on: How much each step will cost. Remember that in a joint venture each company is responsible for paying its own costs.
- 5 Imagine you have done the work and sold the goods (e.g. making teapots and selling them overseas and in Uzbekistan).
- 6 Add up the money and take away the costs from the money. What is left is the profit.
- 7 Agree on how to share the profit – 50/50 or 30/70?

Industry in Britain

Britain is one of the most highly industrialised countries in the world: for every person employed in agriculture 12 are employed in industry. The original base of British industry was coal-mining, iron and steel and textiles. Today the most productive sectors include high-tech industries, chemicals, finance and the service sectors, especially banking, insurance and tourism.

Birmingham developed engineering, chemicals, electronics and car manufacture. Cambridge is famous for software engineering (making programs for computers) and bio-chemical and bio-genetic products. Cattle-farming is the speciality of the west of England, Northern Ireland and Scotland. Wheat and fruit are widely grown in the south-east of England. Near the east and north-east coast of England and Scotland there are vast reserves of oil and gas. The UK is a member of OPEC – the Oil Producers and Exporters Cartel.

'Obi Hayot': Better Drinking Water

A new program of centralised water supply in the countryside is being carried out in the republic. During the realisation of the previous program 7,400 kilometres of water supplies were built in rural areas. The new program calls for the construction of more than 9,500 kilometres. Its financing will be both from centralised sources, and from the farms themselves, and credits from banks and investors. Specialized organisations in the system of the Ministry of Agriculture are trying to improve the quality of drinking water. The joint-stock company 'Obi Hayot' has established direct contacts with companies in Germany, Japan and other states. Their aim is together to develop new technology for water supply. They promise that the new pipelines will improve the taste of the water they will supply too!

preserve conflict ferocity the Balkans provide a forum for

1c Read and check your answers to 1a.

People have dreamed of a peaceful and united world throughout history. The United Nations officially came into being at the end of the Second World War, in 1945, in order to achieve this dream. The primary purpose of the UN is to maintain peace and security throughout the world and to develop friendly relations among nations. Within this broad aim its agencies also try to assist with economic and social problems, and to promote human rights and freedoms.

Since 1945 there has not been another world war, but this does not mean that the UN has had nothing to do. There have been a number of small conflicts of terrible ferocity in places around the world such as Korea, Afghanistan, Vietnam, Iran and Iraq, the Gulf War in Kuwait and the conflicts in the Balkans. Such conflicts are great problems which can only be solved through international cooperation. The UN provides a forum for such international cooperation.

The only time that all member nations actually meet together is at the General Assembly. Here representatives from each of the 185 states which make up the UN meet to discuss the world's problems and how to solve them. There are two working languages at the UN: English and French, but five official languages are used for meetings: Chinese, French, Russian, Spanish and English. Arabic is also used as an official language in the General Assembly.

Name of agency: When it was founded: Main areas of work: What the agency is doing in Uzbekistan:		

UNESCO is a specialized agency of the UN. Its full name is the United Nations Educational Scientific and Cultural Organization. Countries which belong to UNESCO agree to contribute to peace and security by cooperating in the areas of education, science and culture. About 160 nations are members of UNESCO and provide most of the agency's funds. UNESCO was founded in 1946 and has its headquarters in Paris.

UNESCO promotes and supports developments in science, culture and justice. It tries to increase respect for justice and law, human rights and fundamental freedoms for all people. The agency carries out programmes to promote these aims at the request of its members.

On October 29, 1993 Uzbekistan became a member of UNESCO. Soon UNESCO began to have programmes in Uzbekistan. In 1996 in Paris an international conference was held in honour of Amir Temur. It was called 'Science and culture in the age of Temur'. In 1995 at UNESCO's headquarters in Uzbekistan the 28th session passed a resolution to celebrate the 660th jubilee of Amir Temur's birth. In 2002 UNESCO organised a celebration of the 900th anniversary of the birth of A G'ijduvoni, the famous Uzbek poet and scientist, and in 2003 the 2700th anniversary of the founding of the town of Shakhrisabz, Amir Temur's birthplace, etc. You may know that UNESCO contributed funds for the restoration of Khiva and has officially listed Khiva as a World Heritage Site.

1a Work in pairs. Read and answer the questions.

- 1 What do the letters NGO stand for?
- 2 What NGOs do you know?
- 3 What are the Red Cross and the Red Crescent?
- 4 What do they do?

1b Find the words in the Wordlist and translate them.

obey statute natural disaster war battle wounded voluntary volunteer

1c Listen to the first part of the radio programme and check your answers to 1a.

1d Listen to the second part and answer the question. How did the Red Cross and the Red Crescent begin?

2a Read the text and find:

- 1 The names of three NGOs working in Uzbekistan.
- 2 An example of how the Red Crescent cooperates with the Uzbekistan Government.
- 3 An example of the kind of international help the Red Crescent gives.
- 4 Examples of Red Crescent help with disasters in Uzbekistan.
- 5 Examples of Red Crescent programmes to promote healthy citizens.

There are many NGOs working in Uzbekistan. They work to improve all areas of life – health, education, promoting small businesses, and so on. Some NGOs working in Uzbekistan are the Healthy Generation, the Business Women’s Association and the Red Crescent.

The Red Crescent was established in Uzbekistan on May 28, 1992. The organization holds a general assembly every five years. In 1995 the Uzbekistan branch of the Red Crescent became a member of ICRC (International Command of the Red Crescent). On June 5, 1998 the first general assembly was held and the principles of the organization were approved. The members of this organization are from the 12 regions, the Republic of Karakalpakstan, and organizations in Tashkent City, the Railways of Uzbekistan, and the 215 city and district organizations of Uzbekistan.

The ICRC co-operates with the Government of Uzbekistan on a number of programmes. For example, together with the Ministry of Public Education and the local Red Crescent of Uzbekistan, an important and excellent textbook called ‘The Individual and Society’ has been developed for secondary schools in Uzbekistan. The book was approved for use in schools in 2000. In 1998 the Red Crescent gave important help in Shahimardon after the floods, and in 1999 they helped in Soh after the terrible fire, and also in 1999 they sent humanitarian help to Turkey after the devastating earthquake there...

In Uzbekistan the Red Crescent and the ICRC are working to raise awareness about the problem of drugs, the effects of drugs and how to treat them. Many seminars have been organized. The Red Crescent also works with young people. So far the Red Crescent has organized a number of national youth camps with many interesting and educational programmes for young people in Uzbekistan.

If you want to find more about the Red Crescent of Uzbekistan, visit the official website at www.redcrescent.uz

2b Work in groups. What problems and difficulties are there in your place/region? Write three things the Red Crescent could do to help.

2c Work in groups. Say three things you could do to help the Red Crescent in Uzbekistan.

3 Claire is a Year 11 pupil. She supports the WWF. Read and say what you think about her activity.

“We have lots of organizations which try to help. There are NGOs like the WWF (Worldwide Fund for Nature) which try to protect animals and their environments, OXFAM which helps people in disasters and emergencies, and so on. I try to play my part. We have ‘Flag Days’ when we stand in the street and collect money from people. We have official badges so people can recognise us and we are licensed by the city authorities. People are generous. It usually takes me just four hours to collect £70. That’s about \$115.”

4a Say how long it takes you to do these things.

e.g. It takes me 20 minutes.

- 1 How long does it take you to walk a kilometre?
- 2 How long does it take you to wake up in the morning?
- 3 How long does it take you to fall asleep at night?

4b Work in pairs. Ask and answer about how long things take.

Remember:

They organized a camp **for young people**.

It takes me ten minutes **to wake up** in the morning.

Lesson 4 Multi-nationals

1a Look at the logos and say if the companies work in Uzbekistan

1b Match the companies with the country they come from.

USA/UK Germany South Korea
Sri Lanka USA

1c Add more companies which work in Uzbekistan but have their parent company in another country.

e.g. General Motors

1d Say if the companies work in two countries or more than two countries.

1e What do we call companies that work in several countries?

joint ventures multi-nationals
joint stock companies

2 You are interested in working for a multi-national. What do you want to know? Write your questions.

3a Listen to the interview with someone who works for a multi-national. Does the reporter ask the same questions as you have?

3b Listen again and complete the notes.

Good points about the company:
Differences from local companies:
Negative points about the company:

4 Say what kind of job you would like and what kind of place you would like to work in.

5a Read and say what happened and why in your mother tongue.

Be careful! Not all multi-nationals are good guys. Some multi-nationals have caused problems in the past. For example, there was the great baby milk scandal. In Europe, companies cannot promote dried milk for babies. In fact, every packet must carry a warning against giving the milk to babies. This is because a mother's own milk protects babies from diseases and has more food value than dried milk. But some companies wanted to sell their dried milk. They could not sell very much in Europe because of the regulations. So they sold it in Africa instead. Because people there did not know that it was not the best thing for babies, they bought it. It was not cheap, but they thought it was modern, good and convenient. But it was not good for babies and some babies died.

5b Work in groups. Discuss what happened and say what could be done to prevent such situations.

Lesson 5 One world - in English?

1a Work in groups. Ask and answer.

- 1 Which language is the mother tongue of the most people in the world?
a Spanish b Russian c Mandarin Chinese d English e Arabic f Hindi/Urdu
- 2 Which language is spoken most as a foreign language?
a Spanish b Russian c Mandarin Chinese d English e Arabic f Hindi/Urdu

1b Read and check your answers to 1a.

Each year fewer people speak English as their mother tongue – but more people speak it as a second or foreign language. In 1950 nearly 9% of the world's population spoke English as their first language. By 2050 the proportion will have dropped to just over 5%. Chinese is spoken by more speakers than any other language and the numbers of speakers of Spanish, Hindi/Urdu and Arabic are increasing rapidly. During the next few years, English will become a language mainly spoken by bilingual and multi-lingual people. It is estimated that 75% of the world's mail is in English and 60% of the world's telephone calls.

2a Answer the question. Why are you learning English?

- a because I like it
- b because I think it is important for my future job
- c because it is a school requirement
- d because I think educated people should know a foreign language
- e so I can understand the words of songs
- f so I can travel to other countries
- g ... (write your own reason)

2b Work in groups. Ask and answer the question in 2a. Take notes and be ready to report about your group's reasons for learning English.

3a Work in groups. Ask and answer about your future professions. Then look at the table and say if you will need English for your work.

e.g.

A: What do you want to be, Latif?

B: I want to be a network support manager.

A: Will you need English?

B: Yes, I will. Most companies require their ICT staff to speak English because the training courses with companies like Microsoft are run in English and the original training manuals are in English. Of course, there are translations available in Russian, Spanish, Chinese and all the major languages, but you have to wait to get a translation.

Professions where English is the world language		
Business and finance Diplomacy International law ICT and software engineering Banking and insurance Aviation	Shipping Tourism Multi-national companies Science and technology Bio-sciences Agro-chemicals Medicine	Organizations such as the UN, WWF, UNICEF, UNESCO, WTO (World Trade Organization), etc.

3b Report.

4a Work in groups. Write the ways you can continue to improve your English.

e.g. We can listen to the radio and TV. There is news in English on (name of TV channel) and we can get the BBC and Voice of America on the radio.

4b Present your ideas to the class. Add your ideas to the list on the blackboard as you speak.

Lesson 2 UNESCO and UNICEF in Uzbekistan

1a Work in pairs. Pair B read the text below. Copy and complete the table.

	UNESCO	UNICEF
Name of agency: When it was founded: Main areas of work: What the agency is doing in Uzbekistan:		

UNICEF is a specialized agency of the UN. Its full name is the United Nations Children's Fund. UNICEF works in more than 100 countries to improve conditions for children. The Fund is currently conducting programmes in about 150 countries in all continents to help protect children from disease and prepare them for healthy, productive adult lives. It was created in 1946 and has received the Nobel Prize for its work.

In Uzbekistan UNICEF is working with the government to improve four areas of health care: health and nutrition, water and environmental sanitation, education, and providing for the psychological and social needs of vulnerable children.

There are programmes to upgrade health care facilities (for example by providing them with disposable syringes for vaccinations as they are more hygienic) and to provide better nutrition (for example by distributing iodised salt for cooking).

In Khorezm and Karakalpakstan, two regions particularly badly affected by drought, there are programmes to repair desalination units, to provide chemicals to make water safe to drink, to provide water testing equipment so that scientists can monitor the quality of water provided and to provide hand pumps for pumping water.

In some areas the schools are not in good condition so UNICEF has programmes to help repair and equip the schools, and build new toilets to improve sanitation and health. The fourth area that UNICEF is currently working in is to support children who have special problems, those with no family, and those with physical and mental problems.

GRAMMATIK MA'LUMOTLAR

1 Bog'langan ergash gaplar (aniqlamaydigan bog'lovchili ergash gaplar): **who/when/which/where/that**

7- sinfdan bog'langan ergash gaplar haqida so'z yuritilgan edi. Unda **who, which** va boshqa so'roq so'zlar bilan boshlanadigan ergash gaplar ko'pincha odamlar va narsalarni yoki so'zlovchi qaysi (yoki qanday) kishi yoki narsani nazarda tutayotganligini aniqlashda ishlatilgan edi. Bunday gaplarda bosh gap va ergash gap o'rtasida vergul ishlatilmaydi.

*m-n. The girl **who** is coming along the street is from my class.*

'*who is coming along the street*' bu yerda 'The girl' ni aniqlab kelyapti. Shuning uchun u aniqlovchili bog'langan ergash gap deyiladi. Bu yerda '**who**' ni tushirib qoldirib bo'lmaydi, agarda u tushirib qoldirilsa unda qaysi qiz haqida gapirilayotganligini bilib bo'lmaydi.

Bog'langan ergash gaplar biror shaxs yoki narsa haqida qo'shimcha ma'lumot berishda ham ishlatiladi. Ular aniqlamaydigan bog'lovchili ergash gaplar deyiladi. Bunday holatda bosh gap va bog'langan ergash gaplar vergul bilan ajratiladi.

*m-n. Scotland has its own education system, **which** is different.*

Bu yerda '**which is different**' qo'shimcha ma'lumot beradi. U aniqlamaydigan bog'lovchili ergash gapdir, chunki u '**education system**' ni aniqlashda kerak emas. '**which is different**' ni gapdan tushirib qoldirsa ham bo'ladi.

Odamlar haqida so'z ketsa, aniqlamaydigan bog'lovchili ergash gapda **who** bog'lovchisi ishlatiladi.

*m-n. I heard the new speaker, **who** was boring.*

Payt haqida gap ketganda esa **when** bog'lovchisi ishlatiladi.

***After** you arrived, I immediately phoned my colleagues.*

Agarda bosh gap va payt ergash gaplarning egasi bir xil bo'lsa, payt ergash gapdagi ega ba'zida tushib qoladi va **before** va **after** dan keyin fe'lining **-ing** shakli (sifatdosh) ishlatiladi.

*m-n. **After finishing** my classes, I go home by bus.*

***Before going** to bed, I watch TV, etc.*

5 When va if

When ni ishlatgan shaxs biror narsa sodir bo'lishiga ishonchi komil bo'ladi. **If** ni ishlatgan shaxs esa biror narsaning sodir bo'lishi yoki bo'lmasligiga ishonchi komil bo'lmaydi.

ГРАММАТИЧЕСКИЙ СПРАВОЧНИК

1 Придаточные предложения: *who/when/which/where/that*

В 7-м классе мы уже говорили о придаточных предложениях, которые употребляются для определения или выделения людей или предметов. Мы называем их “придаточные определительные предложения”. В английском языке эти придаточные не отделяются запятой.

e.g. The girl *who is coming along the street* is from my class.

В этом предложении ‘*who is coming along the street*’ относится к слову ‘*The girl*’ и определяет его. Поэтому мы называем его определительное придаточное предложение. Его нельзя убрать, т.к. будет неизвестно о какой девочке идет речь.

Придаточные предложения так же употребляются в случаях, когда информация дается о человеке или предмете. Такие придаточные называются неопределенные и они отделяются от главного предложения запятой.

e.g. Scotland has its own educational system, *which is different*.

В этом случае придаточное предложение ‘*which is different*’ дает информацию, она не определяет образовательную систему и это можно убрать.

В неопределенных придаточных предложениях, если говорится о людях, то употребляется местоимение *who*.

e.g. I heard the new speaker, *who was boring*.

Мы употребляем *when*, когда говорим о времени.

e.g. The war began in 1941, *when my father was born*.

Where употребляется, когда определяется местоположение.

e.g. Last summer we went to Samarkand, *where my parents live*.

Мы употребляем *which*, когда говорим о предметах.

e.g. In some areas there are middle schools instead of junior schools, *which take pupils from 9 to 12 years old*.

Which может относиться и ко всему предложению.

e.g. I couldn't speak to him, *which I wanted to do all the time*.

2 Словообразование: суффикс *-ist*

Суффикс *-ist* используется для образования новых слов - профессий или то, чем человек занимается. В основном они образуются от существительных.

e.g. biology - biologist, economy - economist, sociology - sociologist, ecology - ecologist, hair style - stylist

3 Словообразование: *n+n = adjective*

Иногда прилагательные образуются путем соединения двух существительных для выделения какого-либо признака.

e.g. left-hand street, right-wing party, part-time job, etc.

4 Придаточные времени

Мы употребляем *before* и *after* в придаточных времени, когда одно действие идет до или после другого.

e.g. Before you go away, I want to tell you something.
After you arrived, I immediately phoned my colleagues.

Если подлежащее в главном предложении и в придаточном одно и то же, то иногда мы можем не употреблять его, и использовать **-ing** форму глагола (Participle I) после **before** и **after**.

e.g. After finishing my class, I go home by bus.
Before going to bed, I watch TV, etc.

5 When и if

When используется в том случае, если есть уверенность в том, что событие произойдёт в скором будущем.

If используется если нет уверенности в том, что событие произойдёт или нет.

Сравните:

e.g. When everybody is here, we'll begin the dinner.
If he comes, he may stay with us.

When и **If** могут использоваться в случае повторяющихся ситуаций или в ситуациях предсказывающих развитие событий.

e.g. When/if a pupil has lines, she/he must right 50 sentences.
When/if a pupil breaks the rules, he or she is/will be punished.

6 Have something done

Выражение **have something done** употребляется, когда мы говорим, что кто-то что-либо нам делает. Это выражение имеет структуру: **have + object + Past Participle** (смотрите таблицу неправильных глаголов на стр. 121).

	Have	object	Past participle
e.g.	I have	my hair	cut.

В этом предложении говорится, что я не сам, а кто-то постриг мне волосы. Эта структура используется со всеми временами и после модальных глаголов.

e.g. I'm *having my door painted*.
I've just *had my phone repaired*.
I'll *have my house built next year*.
I must *have the car cleaned*.

Иногда вместо **have** используется **get**, при этом значение предложения не меняется.
e.g. She *had* her hair coloured. = She *got* her hair coloured.

7 Need doing

Выражение **need doing** употребляется в значении *нужно что-то сделать с кем-либо или с чем-либо*.

e.g. This room *needs cleaning*.
Т.е. *комната должна быть кем-то убрана*.
e.g. Your hair *needs cutting*.
This house looks very old. It *needs painting*, etc.

8 Придаточные условия

В 8-м классе мы говорили о придаточных условия с *if*. В 9-м классе мы рассмотрим другие аспекты придаточных условия.

8.1 Придаточные условия с *if*

В английском языке существуют различные типы придаточных предложений. Они используются, когда мы говорим о ситуации, когда что-то может произойти и какой может быть результат. Придаточные условия состоят из двух частей: главного и придаточного с *if*. Это придаточное может стоять до и после главного.

8.1 a) Когда мы говорим об общепризнанных вещах или о том, что часто случается, мы употребляем настоящее время и в главном и в придаточном предложении.

e.g. If you *heat* ice, it *melts*.

If it *is* a holiday, pupils don't usually go to school.

В главном предложении могут употребляться модальные глаголы.

e.g. If it is hot, you *can* go swimming.

If you join our school, you *must* wear a uniform.

8.1 b) Когда придаточное предложение стоит в настоящем времени, то часто в главном предложении используется повелительное наклонение.

e.g. If you *want* to join our club, *send* information about yourself.

If he *comes*, phone me immediately.

Модальный глагол может употребляться так же и в главном предложении.

e.g. If you want to join our club, you *should* send information about yourself.

If he comes, you *must* phone me immediately.

8.1 c) Когда мы говорим, что что-то может случиться в будущем, то в главном предложении мы употребляем будущее время, а в придаточном – настоящее.

e.g. If I *come* later, I *ll* let you know.

We *will* go for a walk, if the weather *is* good tomorrow.

Модальные глаголы так же употребляются в главном предложении.

e.g. If you want a good car, I *can* find one for you.

We *can* go for a walk, if the weather *is* good tomorrow.

8.1 d) Если мы говорим о том, что могло бы случиться, то мы используем простое прошедшее время в придаточном предложении и структуру **would + Infinitive** в главном предложении.

e.g. If I *had* a lot of money, I'd *buy* my family a new house.

We *would* work harder, if you *paid* us more.

В этом случае мы употребляем **were**, а не **was** после **if**.

e.g. It's a pity. If I *were* you, I *wouldn't* miss the football and *would* find some time in the evening for the homework.

8.2 Придаточные условия с *if* в прошедшем времени

Когда мы говорим о чем-то, что могло бы случиться в прошлом, но не случилось, мы употребляем **Past Perfect** (прошедшее совершенное время) в придаточных условиях.

В главном предложении употребляется структура **would have + Past participle**.

e.g. If you *have come* early, we *might/could have had* lunch together.

You *mightn't have worried* so much if Alex *had phoned* you at once.

Вместо **would** в главном предложении может употребляться модальный глагол **might** или **could**.

e.g. If you *had come* early, we *might/could* have had lunch together.
You *mightn't* have worried so much if Alex *had phoned* you at once.

8.3 Разные времена в придаточных условия

Иногда в придаточных условия употребляются разные времена в главном и придаточном предложении. Это когда действие в прошедшем имеет результат в настоящем. В основном они представлены в такой структуре:

Придаточных условия
If + Past Perfect

главное предложение
would/might/could + Present tense

e.g. If you *had brought* the book yesterday, I *wouldn't be* so disappointed now.
If he *hadn't had* problems last week, he *might be talking* to us now.

8.4 Придаточные условия с *wish*

wish имеет значение “хотеть”.

e.g. I *wish* to see you tomorrow.
I *wish* you Happy Navro'z.

Иногда *wish* употребляется в придаточных условия. Но значение его в этом случае меняется, оно приобретает оттенок сожаления, нереальности и невозможности чего-либо – хотел бы. Структура предложения с *wish* такая же как и с *if*.

I *wish* I had a car. (= I don't have a car and I regret this.)

I *wish it didn't rain*. (= It is likely to rain and I don't like it.)

I *wish I'd known* Carol. (= I'm sorry that it didn't happen), etc.

9 Образование прилагательных: глагол +*ing*

Прилагательные могут образовываться от глаголов при помощи окончания *-ing*.

e.g. flower – flowering, shine – shining, spread – spreading, etc.

10 Образование новых слов при помощи приставки *tele-*

Приставка *tele-* это греческое слово. Оно означает “дистанция”. Приставка *tele-* стоит перед существительным и образует новое слово.

e.g. tele + communication = telecommunication

tele + phone = telephone

tele + gram = telegram, etc.

11 Краткие ответы на вопросы Yes/No

Иногда на общие вопросы даются краткие ответы такие, как *I think so, I hope so*. Они употребляются для того, чтобы не повторять сказанное в вопросе. В этом случае *so* заменяет придаточное предложение.

e.g. – Do you think it will rain? – *I think so*.

– Will we win the competition? – *I hope so*.

– Is 'Braveheart' still on? – *I expect so*.

Если вы хотите ответить на вопрос отрицательно, то краткий ответ может быть *I hope not* или *I'm afraid not*. В этом случае *not* заменяет придаточное предложение.

e.g. – Do you think John will be at the party? – *I hope not*.

– Are you going with us? – *I'm afraid not*. I have some other things to do.

12 Образование слов при помощи суффиксов *-er* и *-or*

Путем прибавления суффиксов *-er* и *-or* к глаголам образуются новые слова означающие профессии или занятость людей.

teach + er = teacher
employ + er = employer
present + er = presenter, etc.
educate + or = educator
senate + or = senator
govern + or = governor, etc

13 Выражения **see somebody do/see somebody doing**

Эти структуры употребляются в основном для описания действия в прошлом. Выражение **see somebody do** описывает действие в простом прошедшем времени. Выражение **see somebody doing** описывает действие в прошедшем продолженном времени. Вы можете сравнить их в данных примерах:

Past Simple:

Past Continious:

Note: Глагол с **to** в данной структуре не употребляется.

14 Выражение: **to be worth doing**

Если мы хотим показать значимость какого-либо действия тогда используется **worth**. После **worth** используется **-ing** форма глагола.
e.g. This museum *is worth visiting*.

15 Выражение: **It takes me ...**

Иногда используется выражение **It + take (+ person) + time + infinitive**, когда мы говорим о том сколько времени нам потребуется для того чтобы что-то сделать.
e.g. It takes me 15 minutes to eat my breakfast.
It takes 10 minutes to make a cup of tea.
How long does it take you to eat your breakfast?
How long does it take to make a cup of tea?
