Lesson 1 Summer holidays are fun.

Classwork
4a Read the email. Write an email about your summer holiday.

Hello Lucy,
How was your summer? I spent my summer holidays in the summer camp. The camp was in the mountains and it was fantastic. The weather was nice: warm and sunny. Every morning we did morning exercises near the river. Then we made our beds and had our breakfast.
Every day we did different activities: we went hiking and played football or volleyball. But most of all I liked swimming.
In the evening we had different competitions. I was the chess champion.
I liked my summer holidays very much. What about you?

According to one legend, a meteorite (meteorit), a “fire stone” fell from the sky and a spring (buloq) of clear water appeared (paydobo’lmog) at that place. People gave it the name Chashma and built a town there. The water in this spring is special. Its temperature is always 19,5C. There are a lot of minerals (ma’dan), gold (oltin) and silver (kumush) in the water. In addition, the spring is home for wonderful fish – marinka. It is unusual (o’zgacha, boshqacha) fish and people do not eat it. Nurata only has 25 thousand people and they know each other (bir-birini). They are very kind and friendly. What is the most important part of the body? Why?

1b Read and check. Do you agree? Matnni o‘qib, javobingizni tekshiring. Siz bunga qo‘shilasizmi?

When I was a little child, my mother asked me: “What’s the most important (muhim) part of the body?”
I thought and said: “My ears, Mum, because to hear people and music is very important.”
She said: “No. Many people cannot hear.”
The next year she asked me again.
This time I told her: “Mum, it must be our eyes because to see is very important to everybody (hamma).”
She looked at me and told me: “You’re learning fast, but the answer is not correct because there are many people who cannot see.”
Some years later (bir necha yildan so‘ng), my grandad went to hospital and did not come back. Everybody was sorry.
My mother asked me: “Do you know the most important part of the body, my dear?”
I was surprised (hayron bo‘lmoq) at that moment because I always thought this was a game between her and me.
She looked at me and told me: “This question is very important. Every year you gave me different parts of the body. And they were not the correct answer. But today is the day you need to learn this important lesson. The most important part of the body is your shoulder (yelka).”
I asked: “Is it because it holds up my head?”
“No”, she said. Everybody needs a shoulder to cry (yig’lamoq) on sometime in life. I hope you have enough friends to have a shoulder to cry on when you need it.”
Now I know that the most important part of the body is when you feel the pain of others.

1c Choose the correct answer. To‘g‘ri javobni tanlang.

a) want to put your hand on it. b) need their help. c) want to help.

What activity do you like? Try to find an activity you enjoy doing by yourself or with others. Find out about activities in your community to try new things and learn new skills.

Physical activity must not be hard to be good for your body. If you do not like going to a gym, do something outside or walk in a park. Spend more time outside with your parents and friends. Walk the dog, play in a park. These are all ways to enjoy fresh air and open space of the outdoors. If the weather is not good, think about going to a museum. Walk through the displays and listen to their stories from the past. Getting active can be a chance to make new friends.
