2) Who was this holiday organised by? 5) What events can you take part in?
3) How long does this holiday exist? 6) Why is this holiday important?

1b Work in pairs. Read and check your ideas. Look up the new words.

Each August 12, the world celebrates International Youth Day. It is quite a recent world event – the first IYD was on August 12, 2000. It was established by the UN (United Nations Organisation). IYD is a chance for people all around the world to focus on problems of young people.

The theme of IYD 2019 was “Better education”. Good education is very important to achieve development and can stop wars and poverty. It leads to good health, gender equality, work and growth, action on climate or peaceful societies.

IYD helps remind us that we have to think about the better future of young people. It is a chance to ask ourselves: what kind of future world do we want for our youth? What can we do? There are a lot of IYD events in your local area. They are workshops, talks, conferences, concerts, cultural events and meetings. Get involved. Help create a brighter future!

1a Work in pairs. Think about traditions.

What traditions do you know?
Are all traditions old?
Are old traditions important in our lives? Why? Why not?
Choose a tradition. What do people usually do?

1b Work in pairs. Read and check your ideas.

What is a tradition? Probably, traditions are a way of defining who people are. Traditions are something that people keep doing for a long time and join different generations together. That’s why traditions are very important in any country.

There are a lot of traditions in our everyday lives which we carry on in our country. We celebrate birthdays, holidays and traditional wedding ceremonies. The family meal is another tradition that we should try to keep up in our everyday lives. Family meals reflect country’s culture and traditions. Besides, it is a good way to bring the family together and a good chance for parents and children to talk.

People all over the world traditionally celebrate such a common holiday as New Year. But of course, each country has its own national traditional holidays connected with its history. There are some old traditions in Uzbekistan which make us proud of our country. For example, hospitality and traditional respect for elders. Tea ceremony and sharing it with the guests takes place in our life as an element of hospitality.

Ceremonies of Uzbek people have formed over the centuries as a result of complex process of cultures and traditions of different nationalities. They are quite original, bright, and go back to the past. Many ceremonies are associated with the birth and upbringing of children, and wedding.

1c Work in pairs. Match the headings with the texts. One heading is extra.

1e a) National traditions
b) Tea ceremony is popular in many Asian countries
c) Historical ceremonies
d) What traditions do we celebrate?
e) What is a tradition?

2a Work in pairs. Read and complete the sentences.

2b Listen and check your answers.

2c Work in pairs. Compare the countries’ traditions.

e.g. Both Germany and Uzbekistan ... . In Germany ... but in Uzbekistan ... .
LESSON 4 What’s in a name?

1 Work in pairs. Match the names with their explanations.

2a Work in pairs. Match the texts with countries.

2b Work in pairs. Listen and check.

3a Work in pairs. Think about people’s names in Uzbekistan.

Answer the questions.
1) Where do Uzbek names come from?
2) Are there any Arabian or Persian names?
3) What are the most popular boys’ and girls’ names in Uzbekistan?

3b Work in pairs. Read and check your ideas.

Customs of giving a name in Uzbekistan go to the past. There are mainly Arabic (Ali, Asad, Farida, Lailo), Persian (Behruz, Rustam, Gulbahor, Yasmina) and some modern names in Uzbekistan. In different regions, there are popular local names. In 2018 the boys were often called Mustafo (7,785 children). Among girls, Soliha was given to 7,030 newborns.

In Arab culture, common girl names were the names of famous women from Quran, for example, Fatima, Aisha, Kamila. Names of the national Uzbek group are Altyngul and Gulchehra. They compare girls with flowers.

Uzbek male names always mean something. Sometimes names correspond to the nature of the baby or its individual features. For example, in Uzbek families, a boy with light hair is rarely born. Then he is called Saribek or Okboy, which means “yellow” and “white”.

Parents often want the boys to have courage and strength that they get from their names. Pulat and Temir mean “steel” and “iron.” Also, the tradition of calling a baby after the heroes of great legends or history is popular. Ulugbek or Farhod are examples of this custom.

At present, many new and unusual names have appeared.

3c Work in pairs. Talk about your family’s or your relatives’ names.

1) Who gave you this name?
2) What does your name mean?
3) Is your name usual/unusual?
4) Do you like your name? Why?/Why not?

e.g.

My name’s Buri. It’s an Uzbek name. My grandparents lived in the village in the mountains. My grandad was a woodcutter. Woodcutters usually give their sons such names as Urman (“forest”) and Buri. Buri means “a wolf”. He wanted me to become strong and brave as a wolf.

My name’s Anora. My parents have chosen this name for me because it is not only a beautiful name. Anor means “a pomegranate”. Anor is a national fruit. A lot of dishes are decorated with pictures of this fruit. You can see beautiful embroidery designs with pomegranates on national costumes and suzannes. Many people live in mahallas called Anorozor. It means the place where a lot of pomegranates grow. I like my name very much.
LESSON 5 New Year around the world

1a Work in pairs. Think and answer.
1) Is New Year a popular holiday in the world?
2) Do people always celebrate New Year on 1 January?
3) Do people in different countries have the same New Year traditions?
4) What do people usually wish each other on New Year’s Day?

1b Work in pairs. Listen and check your ideas.

2 Work in pairs. Match the phrasal verbs and words with explanations.

3a Work in pairs. Ask and answer. Complete the texts.
Pupil A: look at this page. Ask your partner about Colombo, Denmark, Belgium and Japan.

New Year Traditions for Good Luck

In Colombia, one of the favourite ways to celebrate New Year is to carry ... (What) around the house. The tradition means to bring ... (What).
In Denmark, people ... (What/do) in unison at midnight. This symbolizes jumping forward into the new year and leaving ... (What) behind.
In Belgium, ... (Who) get up early on New Year’s Day and wish the cows and other domestic animals ... (What).
In Japan, there is a tradition that takes place at midnight on New Year’s Eve. It is ringing a bell exactly ... (How many) times. It symbolises getting rid of ... (What) of the old year.
In Ecuador, people make large scarecrows and set fire to them at midnight in order to burn away the bad things of last year. Making the scarecrow is a family activity. People do it for fun and laughs.
In Sydney, there is one of the biggest New Year’s Eve celebrations in the world. It is summer in Australia, and thousands of people gather around the Opera House. A family-friendly firework show starts at 9pm, while the main attraction – the Harbour Light Parade – is at midnight.
In the Philippines, at New Year people eat round foods, carry coins in their pockets, and wear polka-dotted clothing. The round shape symbolises money, and makes people believe that they will have more money the next year.
The Vietnamese wear brand new clothes to bring in the New Year with a fresh start. These clothes are not the modern Western styles that most people wear in their daily life. They wear a traditional kind of long dress with trousers.

3b Work in groups of 4/5. Choose three most interesting/unusual traditions. Explain your choice.

The Odyssey by Homer

The ancient Greek hero Odyssey was the king of Ithaca. He had a wife Penelope and son Telemachus. He made a long journey home to Ithaca after the war of Troy. He was known as a sly and clever person. Odyssey was one of the main leaders in the Trojan War. He created a wooden Trojan horse in which there were some Greek soldiers. At night they went out of the horse and opened the gates to let the Greek army in. It helped the Greeks to win the war. After the war, Odyssey went home but he spent ten years of adventures before he reached home. He met the Cyclopes, Circe, the Sirens, the nymph Calypso and he also made a journey to the Underworld. He could not go home immediately because the sea-god Poseidon was angry with him and made him have a lot of problems.

First, Odyssey came to King Alcinous and Queen Arete and told them the amazing story of his victory in the Trojan War. Then they went on their journey. During his travelling Odyssey and his team passed the island of the well-known cyclops Polyphemus, who lived on the island with lots of sheep. Odyssey and his twelve ships were caught by storm and they were held by the giant, one-eyed cyclops Polyphemus, who was Poseidon’s son. The cyclops had eaten many sailors before Odyssey managed to kill him. He gave the giant strong wine and when the cyclops fell asleep, Odyssey blinded him. After that they left the island. But in spite of the help of Aeolus, King of the Winds, they could not come home again though it was almost in sight.

When the sailors lived on an island of the witch-goddess Circe, she turned half of the men into swine. But Odyssey was helped by Hermes, and Circe’s magic did not work on him. Circe was a daughter of Helios, the god of the sun. She was also a sister of two kings of Colchis as well as Pasiphae, mother of the Minotaur. After a year of eating and drinking on Circe’s island, the Greeks again set off. Circe gave them a piece of advice on how to pass the land of the Sirens and to pass between the many-headed monster Scylla and the Charybdis. She also told Odyssey not to hunt cows on the land. But Odyssey did not follow her advice and they killed a cow for food.

They were punished by the sun god Helios because it was his cow. The ships were lost and all the men but Odyssey were drowned. He was washed on Calypso’s island Ogygia. Calypso was one of the daughters of the Titans Oceanus and Tethys. She wanted Odyssey to stay with her on the island and used magic songs and made him stay for seven years. Odyssey soon wanted to go back to his wife Penelope. His protector goddess Athena helped him. Finally, his son Telemachus helped him to come back to his wife and to his old father, Laertes, and live in peace on Ithaca.

4b Work in pairs. Read and check your ideas. Answer the questions.

1 Mass media is communication through a collection of different media technologies that is important for a large number of people. Print media gives information in physical objects, such as books, comics, magazines or newspapers.

2 Newspapers are usually printed on low-cost paper called newsprint. They may be of general or special interest. They are often published daily or weekly. The most important function of newspapers is to inform the public of important events. Local newspapers inform local communities and include advertisements from local businesses and services. However, today most newspapers are also published on websites as online newspapers.

3 Magazines are published weekly, bi-weekly, monthly, bimonthly or quarterly. They are often printed in colour on coated paper with a soft cover. They are divided into two categories: general interest magazines (The Week, Time, etc.) and special interest magazines (Sports Illustrated, Fortune 500, etc).

4 Mass media may take the form of broadcast media, as television and radio. Digital media is any type of media that is in electronic or digital format. It includes anything that is in audio (sound) or video (visual) form that can be seen or heard by others. They use electronic devices such as computers, mobile phones, CD players, DVD players and others. There are a lot of digital media products in many industries, including such industries as health, government and education.

2b Work in pairs. Read and match the headings with the texts. One heading is extra.

3a Listen and tick what each speaker is talking about.

3b Work in pairs. Listen one more time. Choose the correct ending.

4a Work in pairs. You are going to interview pupils in your school about how they learn news and which mass media they use. Write five questions.

4b Read your questions to the class. Discuss and choose the best 10 questions.
LESSON 3 She says that ...

1 Work in pairs. Look up the new words. Listen and repeat.

2a Work in pairs. Read the text and write questions to the text.

  e.g. What is First News?

2b Work in pairs. Listen and check.

First News is ... (1 What) for young readers. It is published in a full colour tabloid format every ... (2 On what day), and reports about the latest events and politics in a child-friendly format, also news on entertainment, sports and computer games. Children read ... (3 What) and learn about what is happening in the world. There are photographs, news, interesting stories from ... (4 Where). Children understand ... Published: ... (9 How often) Cost: £ ... (10 How much) per issue. 24 digital issues for £26.99.

3a Work in pairs. Read the interview and guess the meaning of the words: quality newspaper, gossip, tabloid.

Good morning, Kaylee.

I know you’re very interested in newspapers, aren’t you?

What newspapers do you like reading?

Why do you read two newspapers?

Good morning, Jahongir.

Yes, that’s right. I read 2 newspapers every day.

One is a quality newspaper, The Guardian. The other is a tabloid, The Sun, a kind of gossip newspaper.

I read The Guardian for information. And I read The Sun for entertainment.

3b Work in pairs. Read and compare this newspaper article with the interview.

Kaylee says that she reads two newspapers every day. She says that one is a quality newspaper, The Guardian, the other is a tabloid, The Sun, a kind of gossip newspaper. She says that she reads The Guardian for information, and she reads The Sun for entertainment.

4 Work in pairs. Think what difference is between Direct and Indirect Speech. Read and write DS for Direct Speech and IS for Indirect speech

5 Chain Drill. Report your partner’s words.

  e.g. A: I’m hungry.
  B says to the class: A says that s/he’s hungry.
  I like watching football on TV.
  He says, “I’m ill.” e.g. DS
  He says that he’s ill. IS
  She says, “I sang a song.”
  She says that she sang a song.
  You say, “I’ll visit London.”
  You say that you’ll visit London.

6 Work in groups of 4. Play Running Dictation.
1a Play The Press Conference.

1b Work in pairs. Write about the celebrity.

2a Work in pairs. Read the answers and write questions.

Kaylee: e.g. Do people in Uzbekistan have any kinds of newspapers?
Jahongir: We have many kinds of newspapers, for example, Xalq so‘zi, O‘zbekiston ovozi, Darakchi, Erudit, Novosti Uzbekistana, Uzbekistan Today and can read the printed newspapers in Uzbek, Russian and English. Uzbekistan National News Agency publishes news in electronic newspapers in German, French, Chinese and other languages.

K: ...?  J: They are all national newspapers.
K: ...?  J: Yes, of course. Every region has its local newspapers, too.
K: ...?  J: They’re interesting. They tell you all the national and local news.
K: ...?  J: My favourite newspaper is Yoshlar Ovozi, of course. It’s very interesting.
K: ...?  J: Yes. You can find an electronic newspaper in Telegram, Twitter, Facebook. And you can watch it in You Tube and listen to it on Radio Yoshlar Ovozi FM.
K: ...?  J: I like it because it’s real media for young people. It reports on all kinds of the latest events in our country and in the world, cultural and sports events.
K: ...?  J: It’s a young newspaper. Its birthday is on 1 September 2018.
K: ...?  J: No, it isn’t expensive. And you can read and download the latest news from the site www.yoshlarovozi.uz.

2c Answer the questions.
1) Do you or your family read local newspapers?  2) What regional newspapers are there in your region?  3) What can you read there?

3a Work in pairs. Read the article and say what grammar tenses are used in Direct Speech.

International Handicrafters Festival

My name’s Masudjon Sulaymonov. I’m a reporter of Uzbekistan National News Agency. I interviewed Khokim of the city of Kokand Mr. Usmonov and this is what he said:

“We’re going to have International Handicrafters Festival for the first time on September 10-15 this year in Kokand. There are 300 guests from 75 countries, 600 craftsmen from 70 countries and 120 visitors from International Handicraft Organizations visit the festival. Foreign guests and participants will visit 12 cultural places. They’ll take part in 20 workshops of masters from Kokand. The aim of this festival is to demonstrate how we keep and develop old folk art traditions of Uzbekistan.”

3b Change Direct Speech into Indirect Speech.
Look at the examples in the Remember Box.

Remember:

Direct Speech: Mary: “I am going to Samarkand today.”
Indirect Speech: Mary said (that) she was going to Samarkand that day.

Direct Speech: They said, “We will do exercises.”
Indirect Speech: They said that they would do exercises.
LESSON 5 What’s your favourite mass media?

1a Read and say what “tell a friend” strategy is.

**Lede (Lead)**
The lede (or lead) of a news article is the first sentence, usually written as one paragraph, that tells the most important information of the story. When writing a lede, it is helpful to use the “tell a friend” strategy. Imagine you should tell your friend a story in one sentence. How would you say what happened in one sentence? A story’s lede gives an answer with the “Five Ws” in a specific order: Who? What? When? Where? Why?

*For example:*
Gwinnett County Public Schools were awarded $250,000 early Wednesday as a finalist for what’s considered the Nobel Prize of public education.

**WHO:** Gwinnett County Public Schools

**WHAT:** was awarded $250,000

**WHEN:** Wednesday

**WHERE:** Gwinnett County

**WHY:** a finalist for what’s considered the Nobel Prize of public education.

1b Work in pairs. Listen to the news and complete the table.

1c Work in pairs. Choose one and write a lead to it.

*E.g.* Guests from different countries come to Samarkand to visit the International Festival Sharq Taronalari which is held every two years.

2 Read and complete the pyramid.

**Inverted pyramid**
News articles are written in a structure known as the “inverted pyramid.” In the inverted pyramid format, the most important information goes at the beginning of the story and the least important information goes at the end. After your story’s lede, order the information that follows from most important to least important.

3 Read and write information with a quote.

**Integrating quotes**
The first time a source is introduced in an article, you should use that source’s full name and title. After this initial reference, use the last name only. *For example:*

“The swine flu vaccine is an incredible advance in modern medicine,” said Health and Human Services Secretary Kathleen Sebelius.

When introducing a direct quote, always use the verb “said” and never any other verbs such as “explained,” “whispered,” etc. It is also more common to use the format “XXX said” instead of “said XXX.” *For example:*

“The housing crisis is growing out of control,” Bernanke said.

Even when information from a source is not used in a direct quote and is paraphrased instead, it still must be related to that source. *For example:*

Bernanke said the crisis is probably over.

The crisis will most likely begin to go down in six to eight months, Bernanke said.
LESSON 6 Project

1a Work in groups of four. You are going to make a class newspaper. Discuss what sections it should have.

- Home News
- Local News
- Women’s Pages
- Horoscopes
- Crossword
- Comics
- Sports News
- Editorial
- Children’s Corner

- Letters Page
- Foreign News
- Births, Marriages, Deaths
- Fashion Page
- Business News
- Stock Markets
- Farming Page
- TV guide
- Religious Affairs

1b Tell the class your ideas.

1c Choose the best sections for the class newspaper.

1d Find a name for your class newspaper.

2a Work in groups of four. Choose a section from the blackboard. Discuss what to put in your section.

2b Write your section. Ask your teacher for help if necessary. When you finish ask your teacher to help you edit your work.

3 Stick your section on a poster and hang it on the wall.

4 Read the whole newspaper.
“I had over $1,000,000 when I was 23, and over $10,000,000 when I was 24, and over $100,000,000 when I was 25, and it wasn’t that important because I never did it for the money.”

– Steve Jobs

He was named as the most powerful person in business by Fortune magazine in 2007.

Steve received Jefferson Award for Public Service in the year 1987.

Jobs along with Steve Wozniak received National Medal of Technology in 1985.

Quotes by Steve Jobs

1. “Being the richest man is not a matter for me. Going to bed at night saying we’ve done something wonderful, that’s what important to me.”

2. “My favourite things in life don’t cost any money. It’s really clear that the most expensive resource we all have is time.”

3. “My model for business is The Beatles. They were four guys who kept each other kind of negative tendencies in check. They balanced each other, and the total was greater than the sum of the parts. That’s how I see business: Great things in business are never done by one person, they’re done by a team of people.”

4. “Sometimes when you introduce new ideas, you make mistakes. It is best to agree to take them quickly, and improve your other ideas.”

5. “Your work is going to fill a large part of your life, and the only way to be really happy is to do what you believe is great work. And the only way to do great work is to love what you do. If you haven’t found it yet, keep looking. Don’t stop. As with all matters of the heart, you’ll know when you find it.”

6. “Finding new ideas and methods makes difference between a leader and a person who follows you.”

Steve Jobs

Steven Paul Jobs, the chief founder of Apple Computer, was born in San Francisco, California (February 24, 1955). His biological parents were Joanne Simpson and Abdulfattah Jandali. Both of them were students at University of Wisconsin and they gave their son to another family – Clara and Paul Jobs. Clara was an accountant by profession. Paul was a United States Coast Guard. The Jobs family lived in Mountain View, California in the area which was later named Silicon Valley. Steve Jobs came to know about his biological parents at the age of twenty seven.

In his childhood, Steve’s father showed him how to take apart electronic devices in the family garage. This is how he was interested in electronics. He was a brilliant student in school. Later, he studied in Homestead High School in Silicon Valley and at this time he was introduced to Steve Wozniak, his future partner. In 1991, he married Laurene Powell, together they had three children and lived in Palo Alto, California. Steve Jobs had cancer and died in 2011.

Steve Jobs was honored as a Disney Legend in 2013 after his death.

He received Grammy Trustees Award in 2012.

LESSON 1 Digital media

1a Work in pairs. Read and think.
What does this phrase mean?

1b Work in pairs. Read and check your answer.
Those who have information have the world. For a long time, these words had the meaning: if you are informed, you can take active actions. One of the authors of the phrase is Francis Bacon, who said, “Knowledge is power”. But these days, in the period of active development of information technologies, these words have a new meaning: we are not passive; we play an active role in the development of the new age. We can see the first steps of the new age in the development of information technologies in all parts of human life.

2a Work in pairs. Write down the new words. Listen and repeat.
battle, power, honest, economy

2b Work in pairs. Look at the pictures and think what the text will be about.

2c Work in pairs. Listen and answer the questions.
1) How did pigeons help the Rothschild brothers?
2) Why did many businessmen sell their papers after the Battle of Waterloo?
3) Who bought all the papers?
4) Do you think that the Rothschild brothers were honest people?

3a Work in pairs. Think and say what you know about digital media.

3b Listen and repeat the new words.
digital media, device, software, image, tablet, audio

economy, digital, electronic, history, changes, smartphones, media, devices

4b Listen and check.

5 Work in groups of four. Say where and how you use the digital media.
LESSON 2 After I’d watched TV...

1  Work in pairs. Answer the question.
   What channels/programmes do you like watching?

2a Work in pairs. Listen and answer the questions.
   1) Who is being interviewed?

3a Read and say what the conversation is about.

   What did you do yesterday evening?

   Oh, I did a lot yesterday. First I had lunch. *After I had had lunch, I helped my mother with the housework. *After I’d (I had) helped my mother, I watched an interesting feature film on TV. *After I’d watched the feature film, I watched a cartoon.

3b Look at the sentences with *. Answer the questions.

   1) How many actions are there in a sentence?
   2) Did the actions happen at the same time?
   3) Which action happened first? How do you know?
   4) “When” and “after” always go at the beginning of a sentence.
     True or False?
     e.g. 1) Two actions.

4 Work in pairs. Look at the table. Ask and answer. Talk about what you did on Sunday.

   e.g. A: What did you do on Sunday?
   B: I went to the market with my father. When we had done the shopping, we had a rest. What ...?
LESSON 3 She said that she had watched ...

1a Read what Ann Brown said what her family did in the morning.

1) I watched a lot of TV programmes including Sports News.
2) My mother made pancakes with honey for breakfast.
3) My father read morning newspapers.
4) My brother played computer games.
5) My cat ate my breakfast!

1b This is what the interviewer wrote in his report.
Say what changes he has made.

Ann said that she had watched a lot of programmes including Sports News.

1c Finish the story about Ann.

2a Work in pairs. Interview your partner. Ask what her/his family members did last Sunday. Listen and make notes.

E.g. A: What did you do last Sunday? B: I did my homework.

2b Look at the notes about your partner. Write a story about him/her.

E.g. She said that her mother had made a cake.

2c Make new pairs. Tell your new partner about your first partner.

E.g. She said that her mother had made a cake.

3a Work in pairs. Read what people write to their newspaper. Ask and answer to complete the sentences.

Pupil A: look at this page. Ask about Lewis and Freya.
Pupil B: look at page 27. Ask about Abby and Mr Smith.

E.g. Where/In what country do supermarkets have a plastic bottle system?

My name’s Lewis. In ... (1 Where) supermarkets have a plastic bottle system. The shoppers get ... (2 How much) p for every plastic bottle they recycle at a special machine. The supermarket has sold ... (3 How many) bottles since the system began last year. That means that people had more than £30,000 for their actions to help nature.

I’m Freya. Some of my friends and I learn to swim. But for our lesson we fly across the North Sea from a Scottish Island! It takes 25 minutes to get to Shetland with our teacher and we travel ... (4 How long) miles!

My name’s Abby. In 2010 I hoped to become the youngest person to sail round the world alone. But I didn’t do it because the sea was too dangerous. In the sea people took me to the other ship. 8 years later some people saw my boat near the coast of Australia.

I’m Mr Smith. Two very special Socorro dove chicks appeared at Chester Zoo. The chicks haven’t been found in the wild for 47 years. There are fewer than 200 of them in the world and all are living in human care. People in Socorro Island, near Mexico, try to make a comfortable place for the doves.

3b Work in pairs. Whose story do you like most? Why?

Remember:
Alisa: I did my homework in the evening.
Alisa said that she had done her homework in the evening.
LESSON 4 Future technologies

1a Listen and repeat the new words.
solar, virtual reality headset, download,
web browser, app, amazing, humanoid-like

1b Work in pairs. Do the quiz.

2a Work in pairs. Listen and choose a title to each text.
a) Social Networks  b) Robotics  c) GPS
   d) Laser Eye Surgery  e) Self-Driving Cars

2b Work in pairs. Read and choose a robot you would like to have. Explain why.

Probably, you can’t wait for the day you can go to the store and easily (and cheaply) buy a robot to clean your house, wait on you and do whatever you want. We know that day is a long way off, but some high-tech companies have already developed some pretty robots that make us feel like the future is here already.

Sofia is a humanoid-like robot that can hold a conversation. This robot has appeared in several TV programmes. Sofia officially lives in Saudi Arabia and she was given a title “Innovation Champion” by the United Nations. Sofia can answer many kinds of questions and she is learning too. Is she an image of the future?

Starship technologies have developed this local robot designed to quickly take parcels to a place which is farther than 3 km. This wheeled self-driving bot is used instead of flying objects. Will the postal packets be only carried by flying and wheeled robots?

Don’t worry about carrying your own bags. Gita Bot will help you! This small robot is designed to follow you around while you’re out and about in town or on the way to work. The bot can carry a big rucksack or two shopping bags, so it’s an ideal companion for a quick trip down to the shops.

Romeo is a robot which is as big as a human. It was designed and built to assist the elderly people because it is difficult for old people to take care of themselves. This robot is able to open doors, climb stairs and hold objects while doing its care duties. In the future, this clever bot may help elderly people to stay in their own homes longer before moving into care homes for old people.

3a Look at the Remember box. Listen and complete the conversation with the language phrases you hear.

3b Work in pairs. Compare your answers with a partner. Together, decide which emotion the listener is trying to express.

Remember:
It is important to show a speaker that you are listening. This can help encourage the speaker to say more so you get more information. Use different expressions for different emotions.

Interest
That’s so interesting!
How cool! Amazing!

Happiness
Wonderful!
I am happy to hear that!

Surprise
Really?
Are you serious?

Sadness
That’s so terrible.
I’m sorry to hear that.
LESSON 5 Is social media dangerous?

1 Work in pairs. Think if social media could be dangerous. Why?/Why not?

2a Work in pairs. Match the words and explanations.

1) click a) to keep someone or something from dangerous things
2) protect b) a small thing that you press to work on a computer
3) cyber- c) to press a button
4) button d) protection of someone or something
5) online e) using computers, especially the Internet
6) security f) the right or opportunity to use or look at something
7) access g) bought, used, etc. using the Internet

2b Work in groups of 4. Answer the questions.

1) Is it easy to use electronic devices in mass media?
2) Is the Internet dangerous?
3) What dangerous things are there on the Internet?
4) How can we protect ourselves from dangers on the Internet?

2c Put the sentences in order. Read and check your ideas.

a) But they need to know about the dangers on the Internet and know how to protect themselves from different online dangers.

b) We live in the digital age when information is used by everybody.

c) First of all, children can be taken by bad people when they give personal information. One wrong click on a button could cause a big problem.

d) Even young children these days have access to the Internet with their smartphones and tablets.

3 Work in pairs. Read and complete the text.

4a Work in pairs. Read the tips and put them in order of importance.

Tips for children

1 Protect your personal information. Never share personal information such as address, phone number, name, personal email address, relatives’ details, parents’ work etc.

2 Never agree to meet online friends in the street or at home. Your online friends may not be who they really are. It is dangerous to meet online friends as they could be bad people.

3 Never click on a button if you do not know what it is or if you want to get dangerous information. Clicking on an app button could bring the dangerous viruses into your device. People could also gather your personal information. Never click on unknown emails, ads and e-newsletters.

4 Use good software. Make sure it will protect your device from viruses and dangerous programmes.

5 You should always go out of the Internet before you turn the computer off.

4b Work in groups of 4/6. Discuss and agree on the list from the most important to the least important.
LESSON 6 Project

Presenting a new tech device

1 Work in pairs and create a new technology. Discuss the categories in the chart and start to plan your technology.

<table>
<thead>
<tr>
<th>Tell the type of technology</th>
<th>(machine, digital, computer, robot)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Explain what your technology is for</td>
<td>(education, entertainment, health, business, home life, school life)</td>
</tr>
<tr>
<td>Describe what your technology can do</td>
<td></td>
</tr>
<tr>
<td>Give your technology a name</td>
<td></td>
</tr>
</tbody>
</table>

2 Share your idea with the class. Use the following as a model:

Our new technology is ... . It is for ... . This technology can ... . We named it ... . Our technology is necessary because ... .

3 Vote for the best technology. Write the names of the technology you vote for in each category. Then take a class vote to choose the best tech device.

1) Most creative 2) Most useful 3) Most interesting/fun 4) I want one right now!

Unit 3 • Lesson 3

3a Work in pairs. Read what people write to their newspaper. Ask and answer to complete the sentences.

Pupil B: look at this page. Ask about Abby and Mr Smith.

e.g. When did Abby hope to become the youngest person to sail round the world alone?

My name’s Lewis. In Iceland, supermarkets have a plastic bottle system. The shoppers get 10p for every plastic bottle they recycle at a special machine. The supermarket has sold 311,500 bottles since the system began last year. That means that people had more than £30,000 for their actions to help nature.

I’m Freya. Some of my friends and I learn to swim. But for our lesson we fly across the North Sea from a Scottish Island! It takes 25 minutes to get Shetland with our teacher and we travel 55 miles!

There are fewer than 200 of them in the world and all are living in human care. People in Socorro Island, near Mexico, try to make a ... (4 What kind of) place for the doves.
A Carrot, an Egg and the Coffee Beans
(a moral story)

A young woman went to her mother and told her about her life and how things were so hard for her. She did not know what to do. She was tired of fighting. It seemed that, as one problem was done, a new one appeared.

Her mother took her to the kitchen. She filled three pots with water and placed each on a high fire. Soon the pots came to a boil.

Then she took some eggs, carrots and ground coffee beans. In the first, she placed carrots, in the second, she placed eggs and in the last, she placed ground coffee beans. She let them boil without saying a word.

In about twenty minutes, she turned off the fire. She took the carrots out and placed them in a bowl. Then she pulled the eggs out and placed them in a bowl. And she placed the coffee in a bowl too.

In the first, she placed carrots, in the second, she placed eggs and in the last, she placed ground coffee beans. She let them boil without saying a word.

In about twenty minutes, she turned off the fire. She took the carrots out and placed them in a bowl. Then she pulled the eggs out and placed them in a bowl. And she placed the coffee in a bowl too.

Turning to her daughter, she asked, “Tell me, what do you see?”

“Carrots, eggs, and coffee,” the young woman replied.

The mother brought her closer and asked her to touch the carrots. The young woman did it and noted that they were soft.

Her mother then asked her to take an egg and break it. After pulling off the shell, she looked at the hard-boiled egg. Finally, she asked her to taste the coffee. The daughter smiled as she tasted its rich aroma.

The daughter then asked, “What does it mean, mother?”

Her mother explained that each of these objects had faced the same thing - boiling water - but each reacted differently. The raw carrot was strong and hard. However, after being in the boiling water, it became soft and weak.

The egg had been easily broken. Its thin shell protected its liquid inside. But, after sitting through the boiling water, its inside became hard! The ground coffee beans were different, however. After they were in the boiling water, they had changed the water.

“Which are you?” the mother asked her daughter. “When problems knock on your door, how do you answer? Are you a carrot, an egg, or a coffee bean? Think of this.”

The mother continued, “Think: Which am I? Am I the carrot that seems strong but, with pain and difficult situation, become soft and lose strength? Am I the egg that starts with a soft inside but change after the heat? Was I first weak and then I had a strong heart? Or am I like the coffee bean? The bean actually changes the hot water, the very situation that brings the pain. If you are like the bean, when things are worst, you get better and change the situation around you. Are you a carrot, an egg or a coffee bean?”

2 Find a quiet and fun reading area to read. Turn off TV or the radio and make sure it is somewhere with good lighting where you can relax.

3 Libraries are wonderful places to find a lot of books free. There is unlimited access to a lot of collections of reading materials and other types of media and technology. Getting a library card is easy and usually just requires a photo ID.

3d Work in pairs. Say which tip is the best for you.
LESSON 5 Books or e-books?

1a Work in pairs. Interview your partner and discuss how many of the following you agree with.

1b Work in groups of 4. Compare your answers.

2 Read the text and discuss the advantages and disadvantages of e-book readers. Use the words in the box to help you.

- easy to use
- light/heavy
- bookshelf
- paper
- screen
- space
- carry
- lend/borrow

For hundreds of years printed books are bought and sold. They have not changed very much until now. The idea of an electronic book reader with a screen instead of pages has become reality. Lots of E-book Reader programs were produced and millions of e-books were downloaded from web resources. Nowadays, there are about 725,000 e-books on Amazon and thousands more are added every year. So what is the future of books? Will printed books be completely replaced by e-books? They are not replaced yet. But, maybe, very soon there will be no printed books in shops at all. Perhaps they will only be in museums!

3a Look and answer the questions.
1) What’s this?
2) Do you have this in your school?
3) If so, do you use it? Why/why not?
4) If no, would you like to have it?

3b Listen to a radio interview with a school graduate, who created e-library for his school. Listen and write T for True and F for False. Correct false statements.
1) Maxim enjoys reading.
2) There weren’t enough bookshops in his district.
3) Maxim’s e-library contains more than 100 books.
4) It takes several minutes to download a book from the e-library.
5) Only adults can download books from it.
6) Books are easily downloaded with the help of QR code.
7) It is very difficult to download books from the e-library.

4 Read and discuss. Use the following phrases to express your opinion about given statements.

E.g. I think in the future people will only read e-books.

“I like books, and I think books will continue to be important in our society. A certain kind of person has said for years: "Books are dead, society is going downhill," and then something comes along like Harry Potter, 754 pages long, and it sells five million copies in twelve hours. The age of book is not over, no way ... But maybe the age of some books is over.”

Stephen King

Expressing agreement
I quite agree ...
Yes, indeed ...
I could not agree more ...
You are quite right about ...
You have just read my mind ...
Yes, that’s obvious ...
I couldn’t agree with you more.
No doubt about it.
Yes, I think it’s important to ...
I don’t see any reason why not ...

Expressing disagreement
I don’t think so.
Not necessarily.
That’s not always true.
I don’t quite agree that ...
Well, that’s one way to look at that, but ...
Strong: No way.
I’m afraid I disagree.
I totally disagree.
LESSON 6 Project

1 Work in pairs. Read the reviews and say which book you would like to read and why.

- e.g. My favourite book is “Bitter Fruit” by Brian Keeney. This is the story of Rebecca and her family. She often disagrees with her parents. The book tells how Rebecca lives on after her father’s death. I would recommend the book to all teenagers.

In Great Britain many books for young readers are published every year. Teenagers often write about the books they have read. They write about the theme of books, explain why they like them and recommend other teenagers to read them. This kind of writing is called a “Book review”. The following book reviews are written by three English teenagers.

“Stormbreaker” by Anthony Horowitz is a thrilling book about Alex Rider and his teenage spy adventures. His uncle was killed and Alex wants to know who killed him. Later he was trained by MI 6* as a spy and sent on his first mission. Soon he discovers a dangerous situation and decides what to do.

“Stormbreaker” is an excellent book which kept me on the edge of my seat.

*MI 6 - the section of the British Secret Service

“Coram Boy” (the writer is Jamila Gavin) is a book about the life of people in the 18th century. A man called Otis and his son collect unwanted babies from mothers and promise to send them to a good orphanage, the Coram Hospital. However, Otis is a dishonest man and quite often these babies die. The book also tells us about two boys who don’t have parents: Toby and Aaron, and what they decide to do.

It is a book full of love, unfriendly people and it is very exciting. The chapters are about the right size, and to anyone who finds it slow at the beginning, I say just keep on reading, you won’t be disappointed.

“Bitter Fruit” (the author is Brian Keeney) is about Rebecca and her family. Rebecca is a teenager girl. She often disagrees with her parents. Once on a very bad day she tells her father that she hates him. These are the last words she says before he dies. This is the story of how she lives on after her father’s death. The beginning of the book is slightly too long, and I didn’t want to read on. However, it gets better and by the end I liked it very much.

2 Work in groups of four. Choose a book and write a review. Use the following plan.

- Step 1
  Choose the book you want to review. Answer the questions.

- Step 2
  Decide what information you want to use in the introduction, main part and conclusion.

3 Stick your reviews on the wall. Read the reviews and choose the best book to read. Explain why you would like to read it.
Henry Cooper was on his second visit to the moon, and sending back daily reports to the United Nations Space Administration. Cooper had already visited and written about the famous place where the first men had landed on the moon. But that now belonged to the past, like Columbus's voyage to America. What interested Cooper now was the future.

When he had come, everyone had been very glad to see him; he could go anywhere he liked and ask any questions he wanted. UNSA had always been friendly towards him because the reports he sent back to earth were accurate.

But now he had a kind of strange feeling that something was wrong somewhere, and he was going to find out what it was. He reached for the phone and said, “Please get me to the Police Office. I want to speak to the Chief Inspector.”

He met Chief Inspector Chandra Coomaraswamy next day. Cooper had known him for many years and for some time they talked about old friends and old times.

Then Cooper said, “You know everything that’s happening on the moon, Chandra. And you know that I’m here to write a number of reports for UNSA. So why are people trying to hide things from me?”

It was impossible to hurry Chandra. He went on smoking his pipe until he was ready to answer. “What people?” he asked at last.

“Well, I’ve noticed that the Medical Research Group is avoiding me. Last time I was here everybody was very friendly, and gave me some fine stories. But now I can’t even meet the research boss. It really worries me. Is there some kind of new, killer disease?”

There was a long silence. Then Chandra said, “I’ll start asking some questions. I don’t like it either.”

The call came two weeks later. “Henry? Chandra here. Can you meet me in half an hour at Airlock Five? Good. I’ll see you there.”

Cooper knew Airlock Five meant that they were going outside the city. Chandra had found something.

As the moon car drove along the rough road from the city, Cooper could see the earth. It threw a bright blue-green light over the hard, ugly land of the moon. Cooper thought that it was difficult to see how the moon could ever be a nice place. But if humans want to know nature’s secrets, they must live and work in places like these.

The car turned off to another road and soon they came to a shining glass building. There was another moon car, with a red cross on its side, parked by the entrance.

Soon Cooper was following Chandra down a long hall, past laboratories and computer rooms, all empty on this Sunday morning. At last they came into a large room, which had all kinds of plants and small animals from earth. A short, grey-haired man was waiting there. He was looking very worried and very unhappy.

“Dr Hastings,” said Coomaraswamy, “Meet Mr Cooper.” He turned to Henry and added, “I’ve asked the doctor to tell you everything.”

The scientist was not interested in shaking hands or making polite conversation. He walked over to one of the containers, took out a small brown animal, and held it out towards Cooper. “Do you know what this is?” he asked unsmiling.

“Yes,” said Hastings. “A perfectly normal hamster. But this one is five years old.”

For a moment no one spoke. Then Cooper whispered, “My God – you’ve found the way to make life longer!”

d In order to do this, Muybridge set up 12 cameras along the racetrack. Then he took the 12 images from the racetrack. Harry Potter is a boy who was brought up by his unkind Muggle (non-magical) aunt and uncle. At the age of eleven, half-giant Rubeus Hagrid told him that he was a wizard and that his parents were killed by a cruel wizard named Lord Voldemort. Jane Eyre (originally published as Jane Eyre: An Autobiography) is a novel by English writer Charlotte Brontë, published under the penname “Currer Bell” on 16 October 1847. Jane Eyre follows the experiences of its eponymous heroine, including her growth to adulthood and her love for Mr Rochester. The novel revolutionized prose fiction by being the first to focus on its protagonist’s moral and spiritual development through an intimate first-person narrative, where actions and events are coloured by a psychological intensity. Charlotte Brontë has been called the “first historian of the private consciousness”, and the literary ancestor of writers like Proust and Joyce.

Jane, a 10-year-old girl, lives with her uncle’s family because her parents are dead. Her uncle is always kind to her but his wife, Sarah Reed is not. Sarah’s son John and Sarah’s two daughters also hate Jane. They often try to hurt her. She is later sent to the Lowood Institution, a charity school, where she and the other poor girls have bad conditions of life. But in spite of that, she finds friends there and becomes strong.

After several years as a student, she becomes a teacher at Lowood, but she dreams about how to leave this place. She finds work at Thornfield Hall, where she meets the master of the house, rich and proud Edward Rochester.

At Thornfield, Jane looks after young Adèle, the daughter of a French dancer who was living there. She meets a very kind woman, the housekeeper Mrs Alice Fairfax.

Jane loves Rochester. Rochester loves Jane too and wants to marry her. However, on their wedding day, Jane learns that Rochester cannot legally marry her, because he already has a wife, Bertha Mason, who has gone mad and is locked away on the third floor because of her illness. Jane now understands the strange noises that she heard in the house. Rochester was not honest with Jane but he loves her. He suggests joining him and going to France together, where they could live as husband and wife. But Jane does not want to live against the law. She has her rules of life and she leaves Thornfield.

Jane is taken in by people she later discovers are her cousins. One of them is St. John, a religious man. He gives her a job and soon wants to marry her and take her to India. At first Jane agrees to leave with him but not as his wife.

Just then, she always hears a strange voice of Rochester in her mind. Jane returns to Thornfield and finds the house burned, set on fire by Rochester’s wife, who then jumped to her death. Rochester tried to save her, but was blinded. Jane and Rochester are happy to be together and they get married. Rochester later has the ability to see again, and the couple have a son.

Jane Eyre was used in various films, TV and stage plays, including a 1943 movie that starred Orson Welles as Rochester and Joan Fontaine as Jane.

---

Did you know that music is part of what makes humans human? Every culture makes music. Musical instruments are amongst the oldest man-made objects ever found. For example, there are flutes around 37,000 years old and perhaps even older!

Scientists have recently discovered that music affects many parts of our brain very deeply. Try to sing ‘Happy Birthday’ or any song you like and you will understand. Music gets under your skin. It creates strong feelings and memories. How does it make you feel?

The more we learn about music, the more we will be able to say what we want to say in music. In other words, the more we learn about music, the more we will be able to say things that we cannot say in words.

Children’s brains are developing. That means children are much more ready to hear new things than adults. Many adults think that certain types of music (for example, classical music) are not for children. In fact, the opposite is often true. If an adult has not heard a particular type of music in childhood, then they will not normally like that music as an adult.

The more types of music children hear, the more types of music they will like as adults and the more they will listen to. And the more types of music they will listen to, the more they will understand about the essential language of music itself!

3a Work in pairs. Answer the questions.
1 What is classical music?
2 How is classical music different from other genres of music?
3 Why do people love classical music?

3b Read and check your answers.

Classical music has been composed by musicians who were taught how to write it and they wrote it down so that other musicians can play it.

Classical music differs from pop music because it is not made just in order to be popular for a short time. It is different from folk music which is generally made up by ordinary members of the society and learned by future generations by listening, dancing and copying.

It is a genre that beautifully expresses every imaginable emotion and tells so many brilliant stories throughout history. Playing classical music to young children has been proven to help with their cognitive development, to develop their imagination, and also to produce a calming effect.

4a Write down the new words. Listen and repeat.

4b Work in pairs. Listen to what great young musicians say about classical music and match the people with sentences.

LESSON 5 What is the future of music?

1a Work in pairs. Read and explain the bold words.

How do musicians become famous?

Not all musicians become famous but some do. First, they form a band and practise a lot. Then they think of some good lyrics and music for a song. After writing the song, they go to a recording studio to record the song. Then they release a single. If the song is a hit, it could go to number one and then they become famous. After that, the band should release an album and go on a tour so that they can play live for their fans.

1b Work in pairs. Read and say where the text is taken from.

Yalla (Cyrillic: Ялла; pronounced riAl’la:! in Uzbek) is a folk rock band from Uzbekistan. Music for the Clouds

There was once a very small country that had problems of long periods without rain. It had gone so long without rain that the people there were starting to go hungry because of the bad harvests.

It just so happened that a group of musicians were travelling the country, trying to make a living from their concerts. But with so many problems in the land, no one felt like listening to music.

“Music can help solve any problem,” said the musicians. But no one paid them the smallest attention.

So the musicians tried to find out the reason it wouldn’t rain. It was very strange, because the sky was cloudy. But nobody could answer this question.

“It’s been cloudy like this for many months, but not a single drop of rain has fallen,” people would tell them.

“Don’t worry,” said the musicians, “we’ll bring rain to the country.”

They began rehearsing for a concert at the top of the highest mountain. Everyone who heard the music was interested and went up the mountain to see what was happening there. The conductor of this strange orchestra gave the order, and the musicians began to play.

From their instruments came small, playful musical notes, that rose and rose into the clouds. The music was so joyful, happy and fun, and the notes started playing with the clouds’ soft, white bellies, running here and there, up and down, and the whole sky turned into one big playground. Soon after that, the giant clouds were thundering with laughter.

The musicians continued playing joyfully and a few minutes later the clouds started crying with laughter, and soon it was pouring with rain. The clouds above the little country cried with their beautiful tears, bringing happiness to all.

And since that time that musical rain stayed in the memory of everyone. Each person in the land learned how to play an instrument and, taking turns, would go up the mountain every day to bring joy to the clouds with their beautiful songs.

Drums in Space

Brenda Bongos was a happy, artistic girl, a girl with one big ambition – to play the drums in a band. To be good enough to play in a band Brenda had to practise a lot, but she lived next-door to a lot of old people – many of them sick. She knew that the sound of beating drums would really get on their nerves.

Brenda was a very good and kind girl. She always tried to find a way of practising her drums without bothering other people. So, she had tried playing in strange places like a kitchen, an attic, and even in a shower. She spent most of her time playing on books and boxes.

One day, while watching a science documentary on TV, she heard that sound cannot travel in space, because there is no air. At that moment, Brenda Bongos decided to become a sort of musical astronaut. Brenda built a space bubble. Inside there was a drum kit and a chair. Brenda got into the space suit she had made, entered the bubble, turned on the machine, and...

She played those drums like a wild child! It was not long before Brenda Bongos – ‘The Musical Astronaut’ – had become very famous. Finally, Brenda was a real musical astronaut, and had gone far beyond her first ambition of playing drums in a band.

Years later, when they asked her how she had achieved all this, she said, “If those old people next-door didn’t mean so much to me, it wouldn’t happen.”

LESSON 2 What is science?

1a Work in pairs. Think about what science is. Answer the questions.
1) What language does the word “science” come from? What does it mean?
2) What does science learn about?
3) What is science based on?
4) What are “branches” in science?

1b Work in pairs. Read and check your ideas.

2a Work in pairs. Find the meaning of the new words.
- universe, matter, react, the Big Bang, model

2b Work in pairs. Read and match the texts with headings. One heading is extra.

a) Many universes  b) What is dark matter?  c) Other kinds of life  d) End of the universe  e) The shape of the universe  f) How the universe was born

1) This is really a simple puzzle. Are there other types of life out there in the universe? Frank Drake, an astrophysicist, thinks that if only one in billion planets has living things, then there must/may be over 6 billion planets with living things on them. Enrico Fermi, however, says that if life is that usual, then why we have not had any signs of other kinds of life in the universe.

2) Astrophysics knows a lot about what our universe consists of. But in fact, we can only see about 4% of the universe. The models of the universe show there must/might be a lot of matter which we do not see or “dark matter”. This word means that we have no idea of what it is. It is made of different type of matter and it reacts with light and other matter in a different way.

3) The astrophysicists think there could/must be many universes, which are in the same space and time as our universe. These universes may/must have their own history and laws of physics. This is not a fact for the moment, but some day it may/must be possible to travel to the other universe to your favourite singer’s concert.

4) How did the universe begin? The universe includes everything that we know, including time. But what was there before the beginning of the universe? Different studies talk about the “Big Bang”, which started the universe from a single point. It happened around 13.8 billion years ago. But it did not simply appear from nothing. There was the Big Bang not in space but of space. The Big Bang created the universe. What started the Big Bang? Where did all the energy and matter come from?

5) There are several opinions about how the universe will die. There are several ways. According to the first idea, the universe will continue growing and, in the end, it will become a cloud of thin dust. Another way is that the universe will fall back into a single point, which may start another big bang. In general, nothing will happen to the universe for more than 20 billion years from now.

Written by Glen Taylor

2c Work in pairs. Read again and choose the correct modal verb: must, may and could. In which sentences can we see uncertainty, certainty and possibility?

3a Work in pairs. Ask and answer.

Remember:
- 13.8 billion – thirteen point eight billion
- 4% – four percent
LESSON 3 Looking into space

1a Work in pairs. Read the text and say how many paragraphs it has.

Isaac Azimov, a science fiction writer, once said: “I do not fear computers. I fear the lack of them.” These days, most people cannot work without a computer. However, is it true that the use of computers is always beneficial?

Certainly, there are several advantages of using computers at work. First of all, they help people work faster. For example, typing on a computer is much faster than writing by hand and it can help you write without grammar mistakes. Moreover, people can organize their work better with a computer. They can save their work and organize their files into folders so that they can find what they need easily.

However, using computers at work also has some disadvantages. One disadvantage is that it is not safe to keep all your work on a computer. Documents can get lost if the computer stops working. Also, people are losing their jobs because computers take their place at work.

So, using computers can be both advantageous and disadvantageous. Despite the problems, however, I believe that they are an important tool at work and we should try to make the best of them.

1b Think of two reasons for and two reasons against using computers at work. Compare your answers with the reasons given in the article.

Amelia Earhart: First Woman to Fly Alone Across the Atlantic

Amelia Earhart was born in 1897 in Kansas. She was not a child of her times. Most American girls were taught to sit quietly and speak softly. They were not permitted to play ball or climb trees. Those activities were considered fun for boys. Amelia and her younger sister Muriel were lucky. Their parents believed all children needed physical activity to grow healthy and strong. Amelia and Muriel were very active girls. Other parents would not let their daughters play with Amelia and Muriel.

When Amelia was preparing to enter a university, World War One began. And Amelia was shocked by the number of wounded soldiers sent home from the fighting in France. She decided she would be more useful as a nurse than as a student. So she joined the Red Cross.

Amelia Earhart first became interested in flying while living in Toronto. She talked with many pilots who were treated at the soldiers’ hospital. She also spent time watching planes at a nearby military airfield. Flying seemed exciting. But the machinery – the plane itself – was exciting, too.

After World War One ended, Amelia entered Columbia University in New York City. She studied medicine. After a year she went to California to visit her parents. During that trip, she took her first ride in an airplane. And when the plane landed, Amelia Earhart had a new goal in life. She would learn to fly.

One of the world’s first female pilots, Neta Snook, taught Amelia to fly. It did not take long for Amelia to make her first flight by herself. She received her official pilot’s license in nineteen twenty. Then she wanted a plane of her own. She earned most of the money to buy it by working for a telephone company. Her first plane had two sets of wings, a biplane. On June 17, 1928, the plane left the eastern province of Newfoundland, Canada. The pilot and engine expert were men. The passenger was Amelia Earhart. The plane landed in Wales twenty hours and forty minutes later. For the first time, a woman had crossed the Atlantic Ocean by air.

Amelia did not feel very important, because she had not flown the plane. But the public did not care. People on both sides of the Atlantic were excited to meet the tall brave girl with short hair and grey eyes. They organized parties and parades in her honour. Suddenly, she was famous.

Amelia Earhart became the first lady of the air. She wrote a book about the flight. She made speeches about flying. And she continued to fly by herself across the United States and back.

In the last years of the nineteen twenties, hundreds of record flights were made. A few were made by women. But no woman had flown across the Atlantic Ocean. She had become the first woman to fly across the Atlantic Ocean alone.

Purdue University provided Amelia with a new all-metal, two-engine plane. It had so many instruments that she called it the “Flying Laboratory.” It was the best airplane in the world at that time.

Amelia decided to use this plane to fly around the world. She wanted to go around the equator. It was a distance of forty-three thousand kilometers. No one had attempted to fly that way before.

Amelia and three male crew members were to make the flight. However, a minor accident and weather conditions forced a change in plans.

Three hours after leaving New Guinea, Amelia sent back a radio message. The messages began to warn of trouble. Fuel was getting low. They could not find Howland Island. They could not see any land at all. The radio signals got weaker and weaker. Then there was silence.

American Navy ships and planes found nothing. Amelia Earhart and Fred Noonan were officially declared “lost at sea.”

2) Kathy loves drawing and she wants a course to help her with her drawing skills. She loves fashion and she is interested in the latest styles of clothes, shoes and bags, because she wants to study this later at college.

3) Paul enjoys reading and making comic books. He thinks his drawings are not good and he doesn’t want to display his work. He wants to learn how to draw superheroes and animals, and create adventures about them.

4) Wendy is good at making pictures and objects from different materials. She wants to visit an exhibition to get new ideas and learn how to use her love of sport in her designs at the course.

5) Mary is fond of drawing and also enjoys filming his friends on an old digital camera. She wants to develop this skill by learning to use modern equipment, and prepare for further study.

A Fashion Design This course is about different drawing techniques, including using inks and colour. You will draw models wearing designer fashions and sportswear. If you like fashion design and think your future is in this, then this course is for you!

B Wild World Art This course focuses on teaching drawing and painting. You will learn how to make a wall poster depicting animals to take home. We have a lot of picture books from galleries around the world to give you ideas! At the end of the course there will be an exhibition of everyone’s work, too.

C Create Magic Do you want to know what your comic stories would look like on film? We are giving you a chance to find out! Bring your own comic drawings or prints, and the actions from your page will be transferred onto the screen! At the end there will be a film show of the best cartoons!

D Colours Matter! Come and enjoy making a bag for your school sports clothes! You will get lots of colourful wool and printed cotton. Choose the design and colour: your favourite football or hockey team colours will work. A trip to a gallery will help you get creative ideas in your designs.

E Art! Art! Use the latest technology to develop creative skills, like printing, photography, cartoons and movie-making. If you want to study these subjects at college, this course is for you! Good drawing skills are helpful on this course, and students’ work will be put into a book.

F Colourful World Come and bring a clean white T-shirt for this fun course! You will learn how to transfer a picture onto your T-shirt with printing inks and paints. You will create a special artwork that you can put on for everyone to enjoy and admire!

One day Dorian attends Sibyl’s performance with Lord Henry and Basil, but the performance is terrible. Sibyl tells Dorian that she can no longer act well, because he has shown her a beautiful reality. Dorian is surprised by her poor acting. He tells her that he does not love her anymore, and he returns home.

To his surprise, the face in his portrait becomes very cruel. He thinks that his wish to stay young is coming true, so he wants to be good so that both he and the portrait can remain young. So the next day he wants to apologize to Sibyl and marry her after all.

However, he is too late: Sibyl dies at the theatre that night. Dorian first feels sad, but then he thinks that it is a wonderful entertainment and the last act of her play. Dorian and Lord Henry spend the evening at the opera.

Basil arrives and says that Dorian has a moral problem. But Dorian does not think about Sibyl or her family; he wants to talk only of happy things. The next day, he moves his portrait to the attic, to which Dorian has the only key.

Several years pass, and Dorian lives a life organised by Lord Henry. While the face in the portrait has turned ugly, Dorian stays young and beautiful. People say that Dorian is not a moral person, but he does not pay attention.

Finally, when he is thirty-eight years old, Dorian shows the portrait to Basil, who asks Dorian to try to be good again. Instead, Dorian kills Basil and destroys his body.

Six months later, while looking at the portrait, Dorian decides to damage it with the knife he used to kill Basil. Soon after, Dorian’s servants and a police officer find an old, ugly man lying dead on the floor in front of a portrait of a young and beautiful Dorian.

LESSON 1 Mother Nature

1. Listen and repeat the new words.
   environment, to depend (on), a process, ecosystem, a balance

2. Work in pairs. Match the words and explanations.
   a) nature  b) environment  c) ecosystem
   1) It includes all living and non-living things that are around us: air, water, land, people, animals and plants.
   2) All plants, animals and people depend on each other. It shows how living things act with each other and how they feel in their environment.
   3) It is the physical or material world or universe. It includes all the animals, plants, humans, seas, mountains in the world and all the processes that happen without people, such as the weather, the birth of young animals and plants.

3. Work in pairs. Read and choose the best answer to the question. Give your own answer.
   Why do we say “Mother Nature”?
   1) It is nature that has created all of us and is the source of our life.
   2) We say “Mother Nature” because nature is life-giving like a mother who feeds and protects us.
   3) People must think of how they treat animals, plants and resources as it is our Mother Nature. So respect your Mother Nature, because those who kill their mother kill themselves.

4a. Listen and repeat the new words.
   fossil fuel, nuclear power, renewable, run out, biofuel, waste-to-energy (WtE), pollution (n), to pollute (v)

4b. Work in pairs. Complete the table about the sources of energy.

<table>
<thead>
<tr>
<th>fossil fuel or not renewable</th>
<th>renewable</th>
</tr>
</thead>
<tbody>
<tr>
<td>e.g. coal</td>
<td>e.g. wood</td>
</tr>
</tbody>
</table>

5a. Work in pairs. Read the texts about advantages and disadvantages of fossil fuels. Pupil A chooses texts about advantages and Pupil B about disadvantages of fossil fuels.
   1) Fossil fuels are one of the most important sources of energy in today’s world. Scientists believe that they come from dead plants and animals. The formation of most fossil fuels started 370 million years ago.
   2) Fossil fuels pollute water in the process of coal mining or drilling of oil or natural gas. These actions seriously pollute the underground water, lakes and seas. Polluted water is poisonous for water plants and fish and also for people who eat the fish.
   3) Fossil fuels are used in the production of some medicines and other things we generally use in our daily lives like plastic, shoes, clothes, dishwashers and electronic things, such as computers and refrigerators.
   4) Fossil fuels give almost 80% of the world’s energy needs. Coal is mainly used for getting electricity. From small cars to ships and airplanes, fossil fuels are used to give power to the engine in all the major means of transportation.
   5) Fossil fuel burning brings the most dangerous effect to the environment. It is global warming. The burning produces greenhouse gases, which keep heat and do not allow it to go back into space at night. Because of global warming, the sea level is rising because ice melts at the poles. This changes the balance of the natural processes.
   6) Fossil fuels are easy to get and their cost is lower as compared to other sources.
   7) Fossil fuels produce air pollution when they are burnt. Burning causes smog, which is harmful for the environment and public health.
   8) Fossil fuels are not-renewable. It means that one day they will run out.

5b. Discuss which is better: to use or not to use fossil fuels.
LESSON 2 What are alternative sources to fossil fuels?

1a Listen and repeat the new words.
windmill, alternative (adj)

1b Work in pairs. Answer the question.
What are alternative sources of energy to fossil fuels?

2a Work in pairs. Match the sources of energy to pictures.
a) fossil fuels  b) nuclear power  c) water power
d) wind power  e) waste-to-energy  f) solar power

2b Listen to the text and say which sources of energy are modern or old.

2c Listen to the text one more time and complete the table about the sources of energy.

2d Work in groups of four. Discuss the question.
Which of the alternative sources can be used in Uzbekistan? Why?

3a Work in pairs. Read and match the titles to texts about biofuels. One title is extra.
a) Reduce greenhouse gases  b) Cheaper fuel  c) Benefits for ecosystem
d) Benefits from plants  e) Growing economy  f) Environmentally friendly

Advantages of Biofuels

1) Biofuels can be used with all kinds of engines and in most conditions. This keeps the engine use longer and needs less care, which saves money. Moreover, they are becoming cheaper in the future.

2) Biofuels are made from many different sources, such as plants grown for the fuel, and waste from crops. Fossil fuels will end sometime in the near future. Waste from crops and plants are renewable and are not likely to run out soon. These crops can be planted again and again.

3) Fossil fuels produce greenhouse gases in the atmosphere. These greenhouse gases cause the planet to warm. The burning of coal and oil increases the temperature and causes global warming. To reduce greenhouse gases, people around the world are using biofuels. Scientists say that biofuels reduce greenhouse gases up to 65 percent.

4) Not every country has much oil. If a country starts using biofuels, this country will be able to develop its economy. More jobs will be created with a biofuel industry. It will keep economy strong.

5) Since biofuels are made of renewable resources, they are cleaner fuels. It means that they produce less dangerous waste and cause less pollution to the planet.

3b Work in pairs or in groups of four. Discuss the question.
Are there any disadvantages in using biofuels? What are they?
LESSON 3 Our green planet

1a Work in pairs. Read and answer the questions.
1) How long does it take to grow a tree?
2) Where is the oldest tree in the world? How old is it?

1b Read and check your answer.
For a tree to reach full growth, it needs good climate and enough water. In tropical climates with warm weather and a lot of water, a tree can become fully grown in 30 years. A tree in cooler regions may take several hundred years to reach full growth. The oldest tree in the world is a Great Basin pine in California, which is approximately 5,064 years old.

2 Work in pairs. Read and answer the questions.
Put the verbs in the correct form.

What is used to make paper? Is this process environmentally friendly?

a) Trees as “raw material” are (1) ... (use) to make paper. Trees (2) ... (be) cut down and we do not always (3) ... (plant) enough new trees to take their place.
b) We use machines to cut down trees and (4) ... (transport) them to the factory.

c) Trees are (5) ... (chop) into pieces. This process (6) ... (need) energy.
d) In the process a lot of water and chemicals (7) ... (be) used. About half of each tree (8) ... (be) wasted.
e) Poisonous wastes are (9) ... (throw) into the rivers and lakes which causes pollution.
f) Transport (10) ... (be) used to take the paper to faraway places. Transportation (11) ... (take) much energy.

3a Work in pairs. Answer the questions.
1) Do we use less or more energy and materials to recycle paper?
2) Why is it important to recycle paper?
3) Is it more or less dangerous for the nature?

3c Work in small groups. Listen again and answer the question. Add more ideas.

What can children do to help save trees?

- e.g. We can reuse paper and write on the other side of it. We can reduce paper use if we read newspapers and magazines online or in the library.

4a Listen and repeat the new words.

4b Work in pairs or in groups. Read and say which advice is the most useful. Why?

- e.g. Rechargeable batteries are more expensive than usual batteries. But we should use rechargeable batteries more often because they are nature-friendly if we want to help nature.

1) Keep a large bottle of water at home and use a glass instead of buying individual bottles of water. If you must buy a single-use plastic bottle while out, make sure that the empty bottle goes to the recycle container instead of the garbage can. If you do not like the taste of your tap water, you can use an inexpensive filter.
2) Never put liquid medicine or other chemicals to a toilet. They kill up to 80% of useful bacteria which clean the underground water. The chemicals later will come back again into our own drinking water. These chemicals are also found in fish and other wildlife.
3) Try to use electronic papers and magazines.
4) Buy rechargeable batteries and use a battery charger. One rechargeable battery can be used instead of 100 usual batteries. They will perform better if you keep them in the refrigerator.
5) Most supermarkets have started using reusable bags to plastic bags. You can buy and use them every time.
6) Buy local products. This makes less pollution from transporting goods for long distances.
LESSON 4 Global climate change

1 Listen and repeat the new words.
- flood, tsunami, heat wave, hurricane, oxygen, CO2 (gas), hunger, spray

2 Work in pairs. Read and check your ideas.
Climate plays a very important role in the life of plants, animals and humans, and is different in different parts of the world. Some scientists think that the world is becoming hotter. Winters have become warmer because of the greenhouse gas. During the last 100 years people have produced a lot of CO2 gas. This gas in the air works like glass in a greenhouse. It lets heat get in, but it does not let much heat get out. So the air becomes warmer. Where does the CO2 gas come from? CO2 gas is mostly produced by human activities. We produce CO2 when we burn fossil fuels, use electricity, transport or other activities, for example, when we use spray for body or hair. Trees take this gas from the air and give oxygen. But in the last few years, people have cut down and burnt big areas of rainforest. This means there are fewer trees and, of course, more CO2 gas! These changes are dangerous for our planet because every year we have more floods, tsunami, hurricanes and fires.

3 Look at the Remember box and complete the sentences.
Use very or really.

1) The floods are e.g. really awful events on the earth. 2) After walking through the snow, my feet were ... freezing. 3) We’ve just had some ... bad news. 4) The weather was ... terrible. 5) When it is ... hot, we drink a lot of water. 6) In Europe we don’t usually have ... boiling weather. 7) They had ... miserable conditions of life. 8) The natural disaster was ... awful when it first appeared in the news program.

4 Work in pairs. Look at the pictures. Listen and complete the table with years and natural disasters.

Remember:
2011 – two thousand and eleven or twenty eleven
very bad = really awful

Datiz and the Whale Shark

This story is about Datiz, a fisherman’s son and Splash, the talking Whale Shark. The story takes place in Mantanani Island, off the North West coast of Malasia.

Datiz loves the sea, especially swimming with sea creatures. Datiz and his father catch many types of fish to sell at the market and to cook at home. The sea is so important to the people of Mantanani.

Every March the whale sharks swim past Mantanani as they migrate from the Philippines to Australia. Everyone comes to the beach to swim with them. Whale sharks are the ocean’s largest fish, and they can live to be 100 years old. Despite their enormous size, whale sharks are gentle and kind. They spend most of their time near coral reefs eating the tiny sea creatures called plankton. Datiz always waits for March to see his friend Splash, the talking Whale Shark.

One day Datiz’s uncle from the neighbouring island of Sapi comes to Mantanani. He teaches Datiz and his father a new technique called blast fishing*. “You will catch just as many fish, but in much less time,” he says. Datiz and his father try this method, and catch many fish. When the other fishermen see this, they all start blast fishing, too.

Soon, March arrives and Datiz dives into the water to find Splash. The two friends swim around the coral reef and talk about the adventures they have had since they last saw each other. Suddenly, they hear a loud BOOM! They see a mess of bubbles, broken coral, and dead fish floating to the surface. They see a fisherman throwing fish bombs into the water. Datiz has never seen blast fishing from underwater. He is horrified to see that it is destroying the coral reefs. Splash says, “I won’t see you next year. I saw this happen on another island, and now we can’t stop there, because there are no more coral reefs and plankton for us to eat.”

Datiz makes a plan. First, he tells all the fishermen on the island about what he has seen. But the fishermen explain, “Blast fishing has given us more fish to sell at the market, and the merchant doesn’t care how the fish are caught.” Datiz realizes this is a bigger problem than he thinks.

Datiz asks Splash to bring him to Sapi, where blast fishing has destroyed the coral reefs. Datiz is shocked when he sees no fish and no colourful coral reefs. He takes pictures to show to the people back home.

Datiz works all night, printing out the pictures from the coral reefs of Sapi, and learning more about the terrible effects of blast fishing. The next day at school, Datiz shows his class the pictures and explains, “When we buy fish, we have to demand that the fish be caught in a sustainable* way. If not, soon we won’t have any fish!” The other students rush home to tell their families.

Next March arrives, and Datiz is excited to see Splash! The friends swim around the reefs, which are still colourful and full of life. Splash says Datiz, “Thank you for teaching the people how to sustainably fish. The reefs are so beautiful because you never gave up!”

**Blast fishing** or dynamite fishing is the practice of using explosives to stun or kill schools of fish for easy collection.

**Sustainable** is causing little or no damage to the environment, and therefore able to continue for a long time.

LESSON 1 Ancient theatres

1a Listen and repeat the new words.
- audience, gesture, tragedy, stage set

1b Work in pairs. Answer the questions.
1) What is theatre?
2) When and where did the first theatres appear?
3) What types of plays were performed?
4) Who were the actors?

1c Work in pairs. Read and check your ideas.

The first people who created plays were the ancient Greeks in 700 BC. The ancient Greeks invented two types of plays. Tragedies always had a sad ending, while comedies always had a happy ending. Both kinds of plays are still used today. The chorus sang and danced as part of a play. Only men played in the theatre. They wore masks. The masks were different for each type of play. The best known ancient Greek playwrights were Aeschylus, Sophocles and Euripides. Some of their plays are still performed today. Sophocles wrote 123 plays! These plays were performed outdoors in large open air theatres, so that up to 15,000 people could see them. There were contests among the playwrights and the winner got a prize. The audience was men, women and children.

2 Work in pairs. Read and say how old the ancient Greek theatre is.
Since we all live in AD or CE (Common Era) years now, there is no need to say “AD”, it is understood. So, it is 2020 AD, but all that you say is 2020. If you have a date in BC or BCE (Before Common Era) and you want to find out how long ago it was, you just add it to the current year. So, if we want to know how long ago 1000 BC was, it was 3020 years ago (2020 + 1000 = 3020).

3a Work in pairs. Listen and repeat the new words, and show them in the pictures.
- puppeteer, glove puppet, marionette, string

3b Work in pairs. Answer the questions.
1) What countries are these puppeteers from?
2) How many people operate one doll?
3) What clothes are the dolls wearing?
4) Are these puppet shows modern or old?

4a Work in pairs. Listen and complete the table about Uzbekistan.

4b Listen one more time and complete the table about Japan.

4c Work in pairs. Say the differences between the Uzbek puppet show and Japanese Bunraku.
- e.g. Uzbek puppet show is older than Japanese Bunraku. But both Uzbek and Japanese dolls wear national costumes.

Remember:
The rich, the poor
1a Work in pairs. Look at the picture. Say what you know about Bernard Shaw.

   e.g. Where was George Bernard Shaw born?

Pupil A

George Bernard Shaw was a famous Irish playwright and writer. He was born in (1) ... (Where?) in 1856. At the age of (2) ... (How old?) he moved to London. Bernard Shaw wanted to become a (3) ... (What?). However, his novels were not successful and he gave up writing them. Soon his attention turned to the (4) ... (What?). Shaw wrote more than fifty plays. His best-known play is (5) ... (What?). The main characters are Eliza Doolittle, Professor Higgins and Colonel Pickering.

2a Work in pairs. Answer the questions about the characters of the play Pygmalion.
   1) Why did Eliza Doolittle come to Professor Higgins?
   2) Why did Eliza want to talk and act like a lady?
   3) Who gave money for her lessons?
   4) What doesn’t she like about Professor Higgins?

2b Work in pairs. Read and check your ideas.

Professor Henry Higgins is good at English language. He meets a flower girl Eliza Doolittle. Eliza Doolittle was grown up in a poor part of London and spoke English badly. Nobody could really understand her when she spoke. She asks Higgins to teach her to talk and act like a lady so that she might work in a very good flower shop. Higgins’s friend, Colonel Pickering, offers to give money for her lessons. Eliza makes a success in her study but she does not like Higgins’s bad manners because he does not treat her like a lady.

3a Work in pairs. Listen and answer the questions.
   1) What does Professor Higgins want Eliza to do?
   2) Is it easy for Eliza to be a good learner?

3b Work in pairs. Explain the stage directions.
   1) HIGGINS: [as a teacher] Say your alphabet.
   2) HIGGINS: [thundering]. Say your alphabet!
   3) PICKERING: [softly] Say it, Miss Doolittle.
   4) HIGGINS: [to Eliza.] Say, “a cup of tea”.

3c Work in pairs. Look at the sentences in 3b. Say which verb in Reported Speech is the best. Why?
   1) Higgins ordered/told/asked Eliza to say her alphabet.
   2) Higgins ordered/told/asked Eliza to say her alphabet.
   3) Pickering ordered/told/asked Eliza to say her alphabet.
   4) Higgins ordered/told/asked Eliza to say “a cup of tea”.

Remember:
“Do your homework.”
He told them to do ...
He told him to do ...
He ordered them to do ...
“Do your homework now!”
He told them to do ...
He asked them to do ...

Listen and write the sentences in Reported Speech.
LESSON 3 Cinema or theatre?

1. Work in pairs. Read and answer the questions.

What is Theatre? Why has it lasted so long? What does it mean to us? Is there something special to itself that it offers us?

J.B. Priestley

1) Why did the English writer John Boynton Priestley write ‘Theatre’ with a capital letter?
2) What is your answer to the writer’s questions?

2a. Work in pairs. Say what you think about the ideas in the texts. Do you agree/not agree?

- a) Real life.
- b) Theatre is a source of knowledge.
- c) Best entertainment for tourists.
- d) In the theatre, you decide what to watch.
- e) Real conversations.
- f) Live performance is better than a picture.

1) The theatre is more powerful than the cinema because the picture cannot be matched with a “live” actor playing. The ballet and opera, comedy and musicals can mix all the feelings. Each theatre is unusual because of its emotions, actors and history.

2) A theatre will always be an important tourist attraction of every city. Its architecture, actors and plays will always be amazing for each visitor. Going to the theatre is the best way to spend a very interesting evening full of emotions. You will enjoy the plays it performs. You will remember this life experience for a long time.

3) Live theatre and film are very different media. In a film, the camera makes a lot of decisions for you: what direction to look, where to focus and what to listen to. In a live performance, your brain changes its attention from one thing to another. Think of the “party event”. When you are among a lot of people, you can focus on one voice in a noisy room. The film makes these decisions for you.

4) In the theater, it is a real live person directly in front of you. It is the reason why people prefer original paintings to copies and that is why they pay more money for the theatre.

5) There is a kind of conversation between performers and audience during a live show that simply cannot be there when you are watching a film. While I love the cinema technology that allows me to have “conversations” like this one, they are not as real as a talk with a human being in the same room. You can watch a film alone on TV but in the theatre with other people, you feel more emotions.

2b. Work in pairs. Say what you think about ideas in the texts. Do you agree/not agree?

- e.g. I agree. You can watch a movie or read a book but going to the theatre is something special. At the theatre the actors can see you and it makes you a part of the play. It gives you different feelings, energy and emotions.
- e.g. I don’t agree. The theatre is boring. I don’t like to be with a lot of people in one room. I prefer watching TV at home.

3a. Listen and write if the speaker likes the theatre or cinema.

3b. Listen one more time. Choose the correct answer in the table.

4. Work in pairs or small groups. Say what you like more: a cinema or theatre. Why?

- e.g. I like theatre and I’d like to visit a theatre of Ancient Greece. I often go to the theatre at weekends or during holidays. So the theatre for me is a holiday. But I also like watching an interesting film at the cinema or on TV.
LESSON 4 Great playwrights

1a Work in pairs. Answer the questions.
1) Who is the greatest English playwright?
2) What was the name of the theatre where he worked?
3) Who played all the roles in the theatre?

1b Read and check your answers.

Theatre in the 17th century
From ancient times some European countries had theatres where young men and boys played the roles of women. One example was “The Globe”, one of the most famous theatres of England. The greatest English playwright Shakespeare (1594-1616) worked there first as an actor and then as the author of plays. Theatre lovers all over the world think his comedies, tragedies and histories are the best in the world.

2a Work in pairs. Match the pictures and the plays.
1) King Lear 2) Romeo and Juliet 3) The Comedy of Errors

2b Work in pairs. Listen and match the texts with the plays.

2c Work in pairs. Answer the questions.
1) The author of the three plays is one man. Can you guess his name?
2) Which of the three plays is the funniest?
3) Which of the three plays deals with a serious moral issue?
4) Which of the three plays would you like to read or to see in the theatre? Why?

3 Work in pairs. Read and write a short dialogue.
e.g. Abanazaar: Hi Aladdin. I’m your relative. I’m your father’s cousin’s wife’s brother.
Aladdin: Hi. Glad to meet you.

ALADDIN COMEDY SCRIPT
Author: Bradley Coffey
Genre: Comic version of traditional tale
The cruel wizard Abanazaar wanted to have power to rule the world. But the power could be only given to one person. It was Aladdin. When Abanazaar arrived in Peking, he looked for Aladdin and asked him to get a magic lamp from a secret cave. Abanazaar said that he was his long lost relative. He said that he would give Aladdin a lot of money. Aladdin needed money because he wanted to marry the Princess and so he agreed. But things got even better when Aladdin rubbed the lamp himself, and saw the Genie. Abanazaar was angry and he ordered Aladdin to give the lamp to him. Aladdin did not want to give it to him and Abanazaar tried to kill him ...

How to make a Glove Puppet

Learn how to make a sock puppet... it is so easy to make.
Firstly, find a sock that you want to use and find some material, scissors, buttons, string and some cardboard.
Next cut an oval out of the cardboard and glue pink or black or red material on to it or use markers or paint. Let it dry completely and then fold the oval in half. It is a mouth.
Cut out a red tongue, as in the picture below. Fold over the tongue and then glue it to the inside fold of the oval.
Now place your hand in the sock....and find where the comfortable place for your hand to open and close it. Then glue the oval there for the mouth.
Next sew or glue buttons for eyes. Also glue string to the top of the sock puppet for hair. Add your own details. Wasn’t that fun?!
The Legend of Kirk Kiz

People have always made legends about strong and brave Amazonian female soldiers. There were many women in armies of different countries.

There is a legend of Samarkand Amazons too. According to the legend, a group of girls stayed in the castle of Kirk Kiz Tepe to protect Samarkand. Soldiers from another country wanted to enter the castle. Samarkand girls, led by their leader Gauhar defended the castle. Many days and nights they fought against enemy soldiers and killed them on the battlefield. A lot of girls were killed too. Only Gauhar and some girls stayed alive, but help from the city did not come. The girls were ready to protect the city to the death.

The castle was burning, cries were heard in the fire, and the walls were broken. The girls lost hope. But Gauhar managed to kill some more soldiers with the arrows. When the arrows ended, Gauhar was hurt.

The enemy soldiers surrounded her. They were looking at her but could not come nearer. Gauhar slowly stood up, a bloody helmet fell down from her head and her long hair fell down on her shoulders. She raised her sword and said: “My name’s Gauhar, my girls were killed in the battle, and I call your leader to fight”.

The soldiers were surprised. No one had fought with their powerful army as bravely as the girls did. The leader looked at the girl and quietly said: “I’d like to have such men in my army”.

He politely came up to Gauhar and carefully looked into her eyes. He realized that he would not take Samarkand, but would find his death there.

The leader took the girl’s hand and kissed it. Then he turned to his men and shouted: “I saw the pearl of Samarkand and it’s enough for me. Back home!” The army mounted their horses and rode away.

Brave Gauhar followed the last soldier with her eyes. A smile of joy lit up her face when they disappeared over the horizon, leaving the land of Samarkand. At that moment, the riders appeared, hurrying to help the Amazons. Gauhar turned her head and said quietly: “Finally!” and fell flat on her back. She was badly wounded. Closing her eyes she remembered her parents: how her mother had made bread and father had told fairy tales, how her sister and she had run to the market for sweets and her friend had told her about his love.

Gauhar looked at the steppe, gardens and the city of Samarkand. A happy smile appeared on her lips. “The city is saved!” – she said.
